FUNCTION DEFINITION

NO	CONTROL	FUNCTION	REMARK
1	⏻/⊘	Press 3 seconds for power on. After turned on the BTRC/SQ, the default red background light is always on. After power on, the red/blue LED flashes alternately, the BT is in searching situation, and the old connected device will be searched synchronously and paired. When the device is searched, only the blue light is on. The blue light flashes quickly during the connection process and is always on after connected.	Each time you switch the sources mode, you must set the volume back to 1/3 of the total volume.
2	▶❙❙	When play music in BT / AUX IN / USB mode, short press for play/pause (AUX is mute), the corresponding indicator light flashes during pause, long press to control the background light to turn on and off.	Indicator light: Blue: BT Red: AUX in Purple: USB
3	❙◀◀	When playing music in BT / AUX IN / USB mode, short press for previous song.	
4	▶▶❙	When playing music in BT / AUX IN / USB mode, short press for next song.	
5	VOL +	When playing music in BT / AUX IN / USB mode, short press to increase volume by one scale; long press to continuously increase volume. There is a beep when the volume is at its maximum, and it will keep beeping if pressing	
6	VOL −	When playing music in BT / AUX IN / USB mode, short press to decrease volume by one scale; long press to continuously decrease volume.	
7	BT Connection	When BT is connected, the blue light will always be on, and the volume synchronized with the phone. BT device name: "DS18-BTRC"	
8	Auto connect function	BT will be disconnected if exceed the receiving range. The red background light flashes quickly when BT is in searching situation, and waiting for connection. When the device returns to the range, it will be automatically reconnected; the blue background light is always on. Press play to continue play music and volume is the same as earlier disconnection. While the device is not in range, other devices can connect to BT.
