DYNABIN D8 Front Camera

Product Information

The Dynavin 8 Front Camera is an aftermarket camera designed to be connected to a Dynavin 8 unit. It provides a front view of the vehicle to the driver, allowing for easier navigation and parking. The camera comes with a video RCA cable and a power wire for easy installation.

Installation Instructions

1. Locate the yellow V-IN RCA port on the back of the Dynavin 8 unit.
2. Connect the video RCA cable from the front camera to the yellow V-IN RCA port on the back of the unit.
3. Connect the power wire from the front camera to the red CAMERA POWER wire on the included camera RCA harness or another 12V power source.

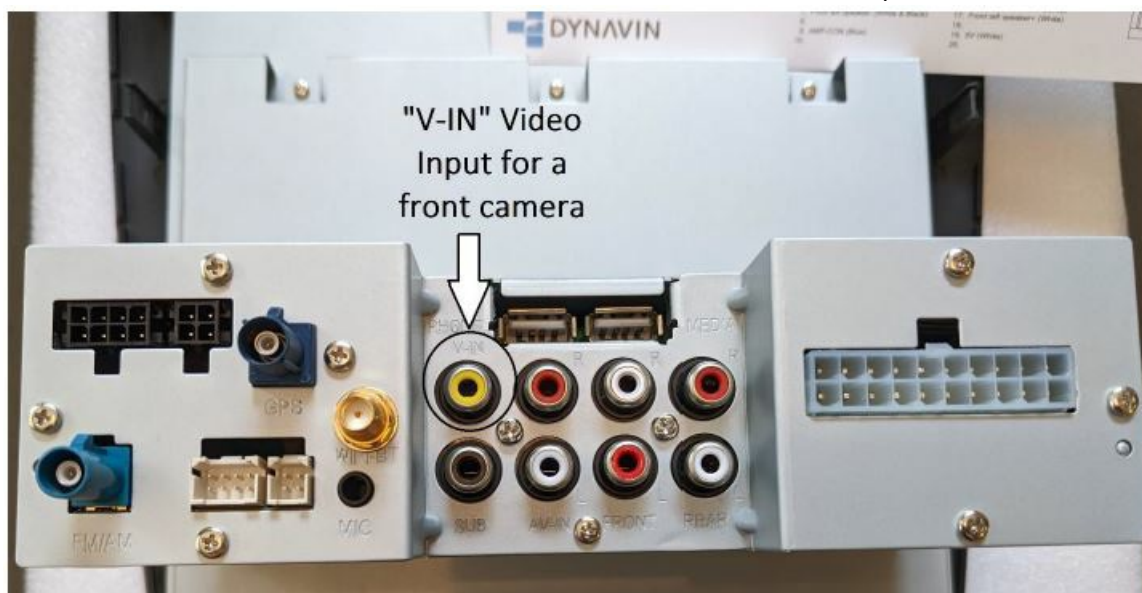

Usage Instructions

1. Turn on the Dynavin 8 unit.
2. Go to the main menu.
3. Select Media.
4. Tap the onscreen button on the top left corner.
5. Select AUX.
6. The front camera image will now be displayed on the screen.

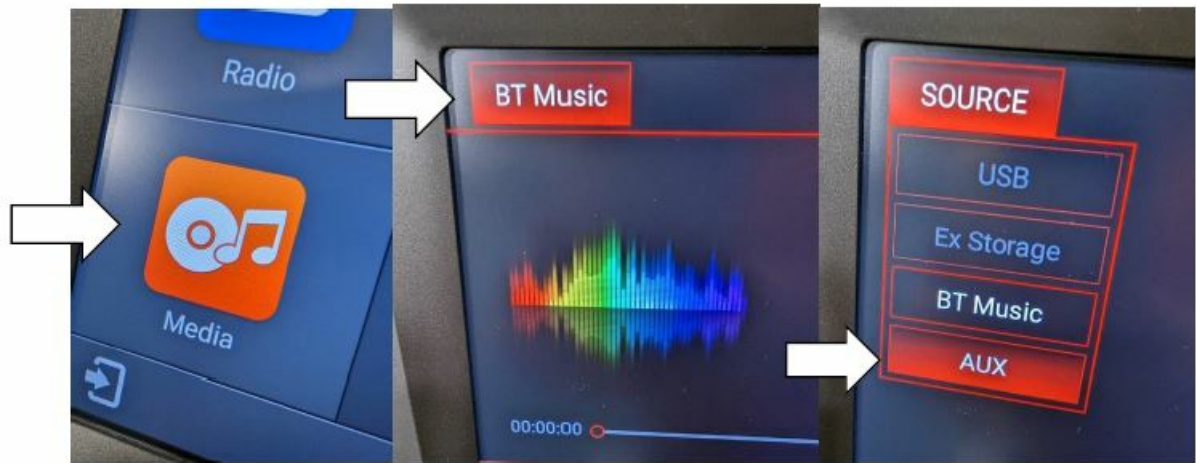

INSTALLATION INSTRUCTION

Dynavin 8 Front Camera Guide

For installing an aftermarket front camera to a Dynavin 8, connect the video RCA from the front camera to the yellow V-IN RCA port on the back of the unit (pictured below). Connect the power wire from the front camera to the red CAMERA POWER wire on the included camera RCA harness or another 12V power source.

To view the front camera image, go to the Dynavin's main menu and select "Media" > tap the onscreen button on the top left corner and select "AUX". (See 2k below for more info.)
