DYNAVIN DVN V2 Reversing Camera Switching Relay

Product Information

The Dynavin Radio is a multi-functional car stereo system that supports DAB, FM, and AM radio frequencies. It also features MDI&CP V-IN and GPS WIFI-BT capabilities. The system comes with a microphone and a subwoofer for enhanced audio quality. Additionally, it has AV-IN ports both at the front and rear of the unit, allowing for easy connectivity to external devices. The Dynavin Radio also comes with a rear-view camera cable for added convenience.

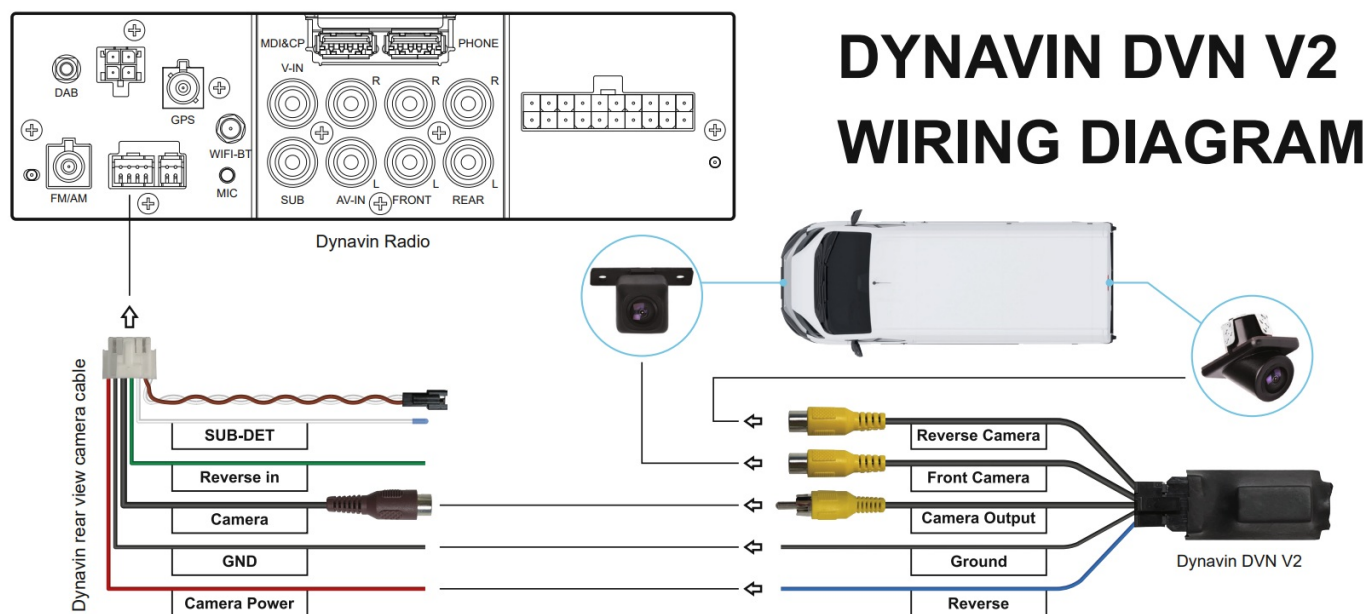

Product Usage Instructions

To use Dynavin Radio, follow the steps below

1. Click the Phone icon on the main menu to make calls.
2. To make a call, enter #1234562* and tap the green call icon.
3. To set the front camera screen time, go to the settings menu and adjust the time accordingly.

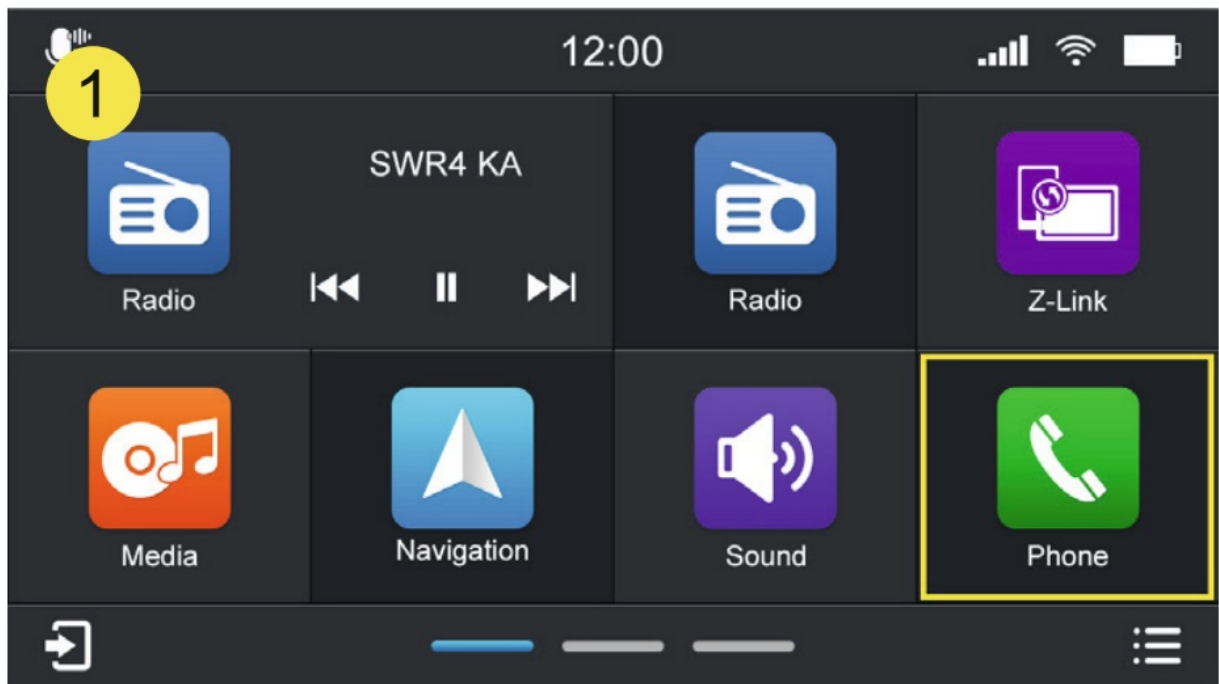

Enjoy using your Dynavin Radio!

DYNAVIN DVN V2 WIRING DIAGRAM

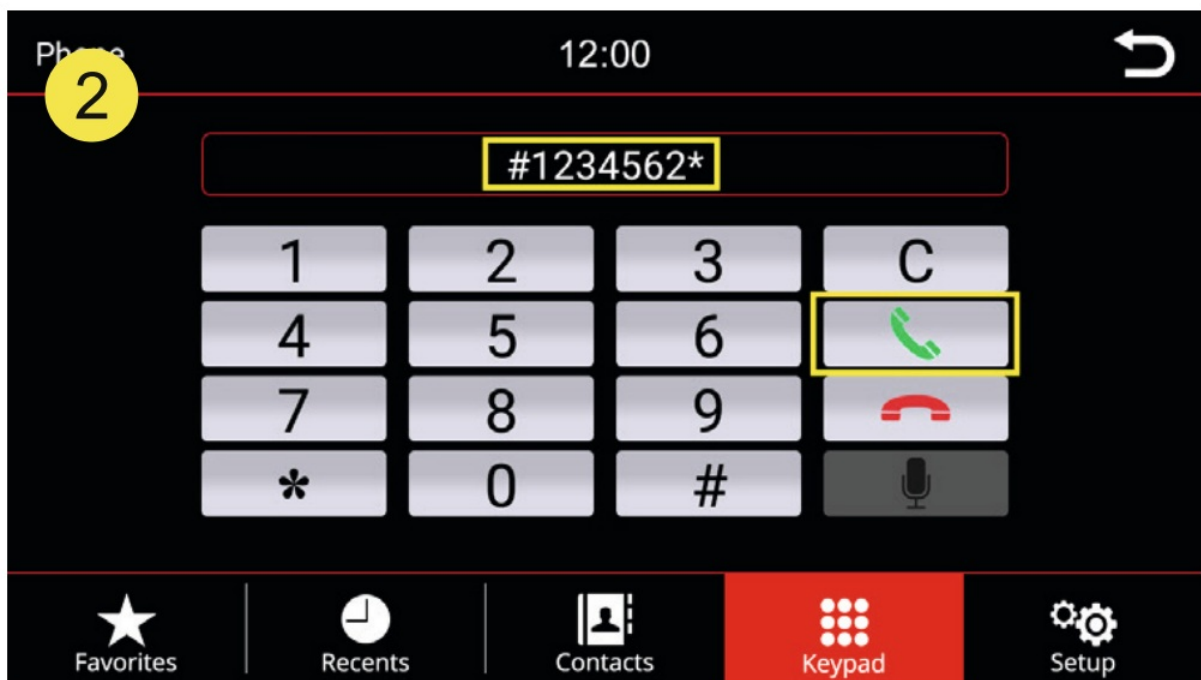

After the DVN-V2 is installed, you need to set it in the front camera setup menu and the Dynavin radio must be upgraded to the firmware after 2023-03.
