2	dynojet decals
2	velcro strip
1	alcohol swab
1	warranty card

PLEASE READ ALL DIRECTIONS BEFORE STARTING INSTALLATION. DOWNLOAD THE POWER COMMANDER SOFTWARE AND LATEST MAPS FROM OUR WEBSITE: WWW.POWERCOMMANDER.COM

INSTALLATION

The ignition must be turned OFF before installation.

1. Remove the plastic electronics cover located above the clutch housing.
2. Unplug the ECU connector on the right side closest to the engine as shown in Figure B.

3. Attach the PCIII USB connectors to the ECU and the factory wiring harness.
4. Route the PCIII USB harness out from under the electronics cover and over to the left side of the air box as shown in Figure C.

5. Clean the left side of the air box and the back of the PCIII USB using the supplied alcohol swab and attach the supplied velcro.

Figure C

6. Attach the PCIII USB to the air box.
7. Replace the electronics cover.
8. Insert the cd provided into your computer's cd-rom drive.
9. Follow the on-screen instructions to install the PCIII USB software. Visit www.powercommander.com to download software tutorials and the latest maps.
