dyras ALCL-002B Alarm Clock

INFORMATION

Alarm Clock Model: ALCL-002B

Before using this device, please read the instruction manual carefully.

IMPORTANT SAFETY

Please read the user manual thoroughly before using your new appliance. You must obey the safety instructions that follow when using the appliance.

- This device is not supposed to be used by physically or mentally handicapped people, or persons without experience or knowledge (including children), unless their use of the device is supervised or guided by someone who is at the same time responsible for their safety. As for children, supervision is recommended to make sure that they do not play with the device. This device is not supposed to be used by children under the age of 14, not even with supervision!
- Never use an appliance or accessory that the manufacturer did not supply with, or propose for use with, the appliance. The use of such appliances or accessories might lead to accidents or irregular function.
- Do not place the appliance near hot objects (e.g., electric or gas cooker, hob, radiator, etc.) or on a hot surface and do not use the appliance on an unstable surface, or a high surface, or any surface where it is unstable and can be knocked down in an accident.
- Do not use the appliance in the presence of explosive or inflammable gases, vapors or liquids.
- This device is intended only for household use. Do not use for industrial or retail purposes.
- Do not immerse the appliance in water or any other liquid!If humidity gets into the appliance, it can cause defects, so do not use it in the bathroom or any other room where there is high humidity.
- Always remove the battery when it stops working. Never leave a dead ("flat") battery in the appliance.

FUNCTION INTRODUCTION

- 4-digit LED display, 2 display modes:
- o Dp-1: time/date/temperature rotation display
- o Dp-2: fixed time display

- Time display function
- Date function
- Temperature function
- Sound control mode: In the normal display state, press the DOWN button to set, "–SD" means turn off the voice control, and the display is always on; "ON SD" means turn on the voice control. After turning on the voice control mode for a few seconds, the display will automatically turn off
- and enter the energy-saving mode. When the close distance is greater than 60 decibels clap your hands or tap the product to wake up the display.
- Alarm clock function
- Brightness adjustment: Under the normal display state of the clock, the long press UP key enters the brightness setting for three seconds, and the short press up key (UP) key / down key (DOWN) adjusts the brightness (from L0 to L3).

OPERATING INSTRUCTION

Long press the set key (until the digital flashing screen appears) to enter the setting item. The setting sequence is as follows:

Setting the date
After entering setting mode, set year – month – day according to the position of digital flash, adjust up (UP)/down (DOWN) in turn.

Setting the time system
After setting the date, press the set key to enter the 12/24-hour setting and press up/down to switch. In the 12-hour system, the PM light is on.

Setting the time
After setting the time system, press the set key to enter the time setting. When the number is flashing, press up/down to adjust and long press fast forward/fast backward.

Setting the alarm
After setting the time, press the set key to enter the alarm setting. Press up/down to set the alarm on or off. "–:A1" is off for group 1 alarm; "on:A1 is on for group 1 alarm. Press the set key again to set the alarm time. When the number is flashing, press up/down to adjust, long press fast forward or fast backward. According to this step, the second group (A2) and the third group (A3) alarm are set.

ATTENTION

- Avoid dropping or hitting the clock.
- Wipe clock surface with a clean dry cloth if need clean.
