E-industry – Detectable is recommended for use in the food/beverages production industry, where the use of hearing protection is mandatory. The attenuation in Eindustry – Detectable is adapted to the noise you experience from industrial environments and at the same time you have clear understanding of speech.

E-industry – Detectable is developed in medical approved, soft TPE via a 3D scan of your ears through earfabSCAN app. Now you can order your custom-made product regardless of location.

Certifications:

CE Certified (1974)
