Note: Diagrams are only for information, take practicality as standard.

Installing Plug-in Chimein Chime

Plug into any regular household regular household socket. Please tear metal strip protective film off before using).

• Melody Selection

This Chime provides more than 50 pieces of music (it's up to the Plug-in Chime you bought) When it is plugged in, press the button to choose desired music forwards to play previous music and backward to play next music until you hear a chime you like. (If you want the Chime to remember selected music, please refer to below point 5~6 if any expanded units exist).

• Sound Volume Selection

Press the volume control repeatedly until the desired volume is achieved – 5 levels are available as a circle, lowest level is mute.

- **Pairing with your**

Wi-Fi video doorbell Press and hold the Volume button for 4 seconds until the LED indicator lights up, Wi-Fi enters into pairing status. Then press the button on the Wi-Fi video doorbell within 5 seconds, pairing is completed once the LED indicator on the Chime is flashing. When the above procedure is finished, pairing is quite automatic.

- **Two or above Wi-Fi video doorbells pairing with the Same Music or Same Chime Unit**

Choose one favorite music by pressing the music select button, then long-press the Volume button for 4 seconds to enter pairing status. Press the Wi-Fi video doorbell within 5 seconds to get a connection, once the LED indicator on Chime is flashing, the pairing is completed. Repeat this operation to get other required Wi-Fi video doorbell connected with the same music or same Chime unit. When the above procedure is finished, quits automatically.

- **Two or above Wi-Fi video doorbells Pairing with different Music**

Choose one favorite melody first, long press 4 seconds on the Volume button to enter pairing status, then press the first Wi-Fi video doorbell to pair. Press the music select button to change melody and pair with different Wi-Fi video doorbells one by one. When the above procedure is finished, pairing is quite automatic.

- **Two or above Chimes Unit Pairing with Same Wi-Fi video doorbell**

The long press Volume button on the first Chime Unit for 4 seconds to enter pairing status, press the Wi-Fi video doorbell within 5 seconds to get the connection. Repeat the above operation to pair the Wi-Fi video doorbell with required Chime Unit one by one.

- **All Pairing Memory Clearance**

Press and hold Volume button until plug into household socket for 5~10 seconds to erase all pairing memory, when Plug-in Chime LED indicator long light up that means setting successfully, thus program returns to default.
