Product Description

The Earthquake Sound ECS 3.0 In-Ceiling Speaker offers a blend of excellent sound quality, easy installation, and aesthetic design. It's the ideal choice for those who want to elevate their home audio experience without compromising on the look and feel of their living space. With Earthquake Sound's legacy of quality and innovation, you're not just buying a speaker; you're investing in a product that stands for excellence.

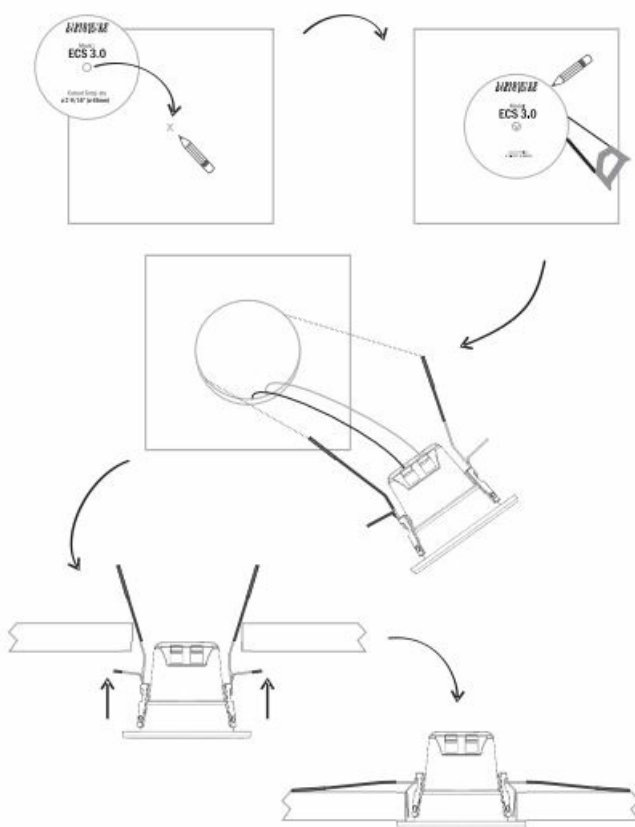

Benefits Over Previous Model (ACS 3.0)

The ECS 3.0 is sold by the pair and is an upgraded model from the ACS 3.0, offering better sound quality, easier installation, and a more attractive design.

Why Choose Earthquake Sound?

For over 30 years, Earthquake Sound has been a pioneer in the audio industry. Their focus on quality and innovation has led to a range of products that deliver exceptional sound. The ECS 3.0, like all Earthquake Sound products, is a result of meticulous engineering and a true dedication to audiophile standards.

Product Assembly

General Warranty Information

- Earthquake Sound warrants the original purchaser that all Factory Sealed New Audio Products will be free from defects in material and workmanship for one year from the date of purchase.
 - The one-year warranty period is valid only if the product is properly installed by an Earthquake-authorized party and the warranty registration card is properly filled out and sent to Earthquake Sound Corporation.
 - If the product is installed by a non-authorized party, a thirty (30) day warranty period applies.

One (1) year limited warranty guidelines:

- Earthquake pays for labor, parts, and ground freight (US mainland only) back to the customer.

Warning:

- Products sent for repair that are tested by Earthquake technicians and deemed to have no problems will not be

covered by the limited warranty.

- The customer will be charged a minimum of one hour of labor at ongoing rates plus shipping charges back to the customer.

Repair or Replacement Provisions:

- Earthquake agrees to repair or replace defective products/parts subject to the following:
 - Products/parts have not been altered or repaired other than by an Earthquake factory-approved technician.
 - Products/parts have not been subjected to negligence, misuse, improper use, or accidents.

Warranty Limitations:

- Earthquake warranty does not cover:
 - Damages to driver enclosure or finish due to misuse or abuse.
 - Bent driver frame, broken speaker connectors, holes in the grille, or burnt speaker voice coil.
 - Damage from improper exposure to elements or from other products.
- A warranty claim is not valid if the warranty registration card is not properly filled and returned with a copy of the sales invoice.

Service Request:

- Contact Earthquake Sound's service department at (510) 732-1000 for an RMA (Return Material Authorization) number.
 - Make sure to provide a complete shipping address, valid phone number, and description of the problem.

Shipping Instructions:

- The product must be packaged in its original protective boxes to minimize transport damage.
- Shipper claims regarding items damaged in transit must be presented to the carrier.
- An original sales receipt must accompany the product returned for service.

Dispute Resolution:

- All disputes must be resolved according to the laws and regulations of the county of Alameda, California.

By carefully reading and adhering to these guidelines, you can ensure you are fully aware of your warranty coverage and how to go about making a warranty claim or service request.
