Safety information

WARNING

Please read and understand this entire manual before attempting to assemble, operate or install the product. This manual contains important information about the assembly, operation and maintenance. General safety information is presented in these first few pages. Please keep this manual for future reference and to educate new users of this product.

WARNING

IMPORTANT SAFEGUARDS

When using an electrical appliance, basic safety precautions should always be followed, otherwise, the potential risk of fire, electric shock and/or injury will be occurred.

When using electrical appliances, basic precautions should always be followed, including the following:

1. Read all instructions, and save it for future reference.
2. Before use, check that the voltage of wall outlet corresponds to the one shown on the rating plate.
3. Unplug from the outlet when not in use, before putting on or taking off parts, and before cleaning. Clean motor housing with wet cloth, and wipe dry. Don't dip in water for rinse.
4. The instrument is not intended to be used by persons disabled, with mental aberration or without related experiences and knowledge (including children), except they are supervised and directed by persons who are responsible for their safety to use the product.
5. Colse supervision is necessary for any appliance being used by or near children.
6. Do not operate any appliance with a damaged supply cord or plug or after the appliance malfunctions, or is dropped or damaged in any manner. Return the appliance to the nearest authorized service facility for examination, repair, or electrical or mechanical adjustment.
7. Don't let supply cord hang over edge of table or worktop, or touch hot surface.
8. If the supply cord is damaged, it must be replaced by the manufacturer or its service agent or a similarly

qualified person in order to avoid hazard.

9. Don't use the appliance if the rotating cone is damaged.
10. Switch off the appliance before changing accessories or approaching parts which move in use.
11. Keep hands, hair, clothing, as well as scraper and other utensils away from juicer during operation to reduce the risk of injury to persons, and damage to the juicer.
12. Wash all parts and components contact with juice. Flush them with water and cool for dry.
