Warranty

FIVE-YEAR LIMITED WARRANTY

Limited Warranty: Guaranteed to last 5 years based on 3 hours use per day, 7 days per week. If this bulb does not last 5 years after the date of purchase (based on 3 hours per day / 7 days per week) due to a defect in materials or workmanship, please bring the defective bulb and a receipt indicating proof of purchase to any Home Depot store. The Home Depot will provide a replacement or, at our discretion, store credit for the value of the original purchase price. This warranty will be voided for misuse of the product per the caution statement. Some states do not allow the exclusion of limitation or consequential damages, so the above exclusion may not apply to you. This warranty gives you specific legal rights and you may also have other rights that vary from state to state and

province to province. Please see the store for more details.

FCC Regulation

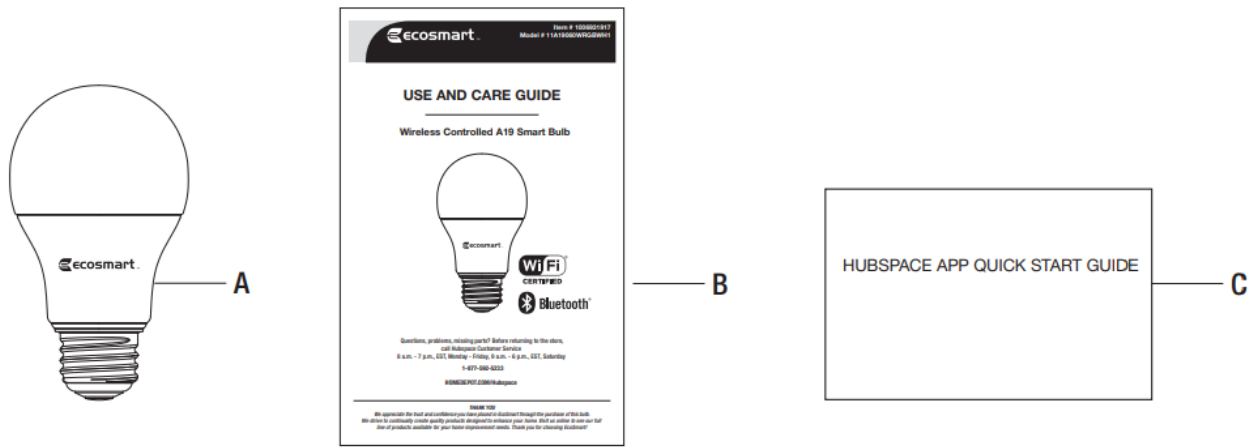

Contains FCC ID: 2AB2Q-MLA02302

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. Any changes or modifications not expressly approved by the manufacturer could void the user’s authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: reorient or relocate the receiving antenna; increase the separation between the equipment and receiver; connect the equipment into an outlet on a circuit different from that to which the receiver is connected; consult the dealer or an experienced radio/TV technician for help. This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and your body.

Pre-Installation

Package Contents

Part	Description	Quantity
A	A19 LED Bulb	1
B	User Guide	1
C	Quick Start Guide	1

Bulb Specification

Model	InputVolts(A C)	Input Frequency(Hz)	InputWatts(W)	Lumens(LM)	Efficiency(LM/W)	CRI
11A19060WRGBWH1	120	60	8.5	800	94	90

Operation

1. Download the Hubspace™ app from the App Store or the Google Play Store.

2. Create an account to sign in or log in if you already have an account.
3. Tap the '+' button in the upper right corner to add your bulb.

NOTE: Bluetooth access is required for device setup.

4. Scan the QR code on the bulb or Quick Start Guide.

NOTE:

- If the QR code cannot be scanned, you can enter the code manually. Tap Enter Code and follow the instructions.
 - If you are unable to access the QR code, on the Scan Device screen, tap the Search button in the lower right corner and follow the instructions.
5. Connect your bulb to power and follow the instructions on app screen.

NOTE:

- This Hub space bulb requires a 2.4GHz Wi-Fi network, which most routers provide.
- The Hub space app will only show Wi-Fi networks compatible with this bulb.
- If you do not see your Wifi network name when you attempt to connect your device, please check your router

settings or move your product closer to your Wi-Fi router.

6. Control your lighting on the Hub space app.

- Dimming Control.
- Color Changing: Select from a shade of the white or full-color spectrum.
- Schedule Creating: Pre-schedule specific times when a connected bulb will turn off or turn on.
- Grouping Control: Turn off or turn on multiple bulbs at the same time.

7. Set up your Voice Assistant

You can connect your smart bulb to Google Home and Alexa from the Hub space app. Or, you can sign in to the Alexa app or Google Home and connect to your Hub space devices from there.

Troubleshooting Guide

Problem	Solution
My Hub space device is not connecting to Wi-Fi.	Make sure your device is connected to a power source. Your Internet connection or Wi-Fi network may be down.
My device cannot find any Wi-Fi networks.	Make sure you have a 2.4GHz capable Wi-Fi network within range of the device you are trying to add.
My device is in a location that does not have Wi-Fi. Can I still use it with the Hub space app?	Yes. Use the app on a phone with an Internet connection like LTE. The phone must be within Bluetooth range of your Hub space device.
I cannot find the QR code.	It is on the bulb housing. A copy of the QR code is also included in your device's documentation.
The QR code has become damaged. How do I add the device?	Under the QR code are numbers. You can enter those manually instead of scanning the code.
I lost my QR code. How do I add a device?	Make sure the device is connected to power. In the Hub space app, tap +, then Add Device. On the Scan Device screen, tap the Search button in the lower right corner. Follow the instructions on-screen.
A device is on another account. How do I transfer it?	Scan the QR code and it will transfer to your account.
My device is offline for long periods of time.	Make sure your Wi-Fi signal strength is sufficient. You may need to move your router, use mesh Wi-Fi, or Wi-Fi extenders.
The device is on and I scanned the QR code, but the app cannot connect to it.	Turn off Bluetooth on your phone and turn it back on. Then, scan the QR code. If the problem persists, turn your phone off and on, then try again.
Can I scan the same QR code to add multiple products?	No. Each product has a unique QR code.
