## TROUBLE SHOOTING

**\*How to confirm the keyboard need to be charged?**

1. When the low battery indicator(red sign) blinks, please use the included TYPE-C cable with your iPad charger to recharge it. The red indicator stays on during recharging. After the charging completed, the green indicator would light up.
2. If you do not use the keyboard for a long time. Please recharge your keyboard in time (once of two months).

**\*How to detect the battery level of the keyboard or ensure that the battery level has been successfully charged?**

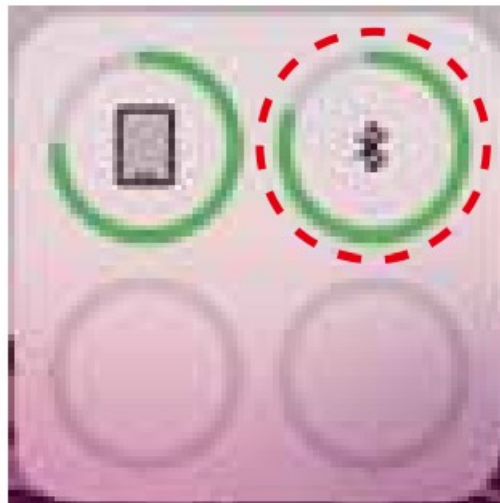

jpg 1

1. If the LED charging indicator lights up in red for a long time, it means that is charging.
2. After the keyboard is successfully connected to the iPad. Swipe right on the iPad home screen. The keyboard battery life is subjected to the Bluetooth icon, see jpg 1.

**\*How to do if the keyboard can't connect to your iPad?**

1. Make sure a keyboard has already paired via Bluetooth.
2. The Bluetooth keyboard is charged.
3. The Bluetooth keyboard is within 33 feet.
4. Please delete all devices on your iPad Bluetooth list, then restart your iPad Bluetooth. and restart the keyboard.

5. Not compatible with multiple device connections, only supports one by one connection.

6. When the battery is low, the Bluetooth connection may be interrupted.

**\*How to press symbol buttons ?**
After bluetooth connected well , just press combination Keys : "Shift" and " any symbol ". For example, "Shift" and " @ "then you will get "@" on your iPad.
**\*How to change between lowercase and uppercase on the keyboard?**

1. The caps lock default function is switch languages. So to type capital letters on the keyboard, please turn off the cap lock default function first.

2. Go to your iPad settings–Keyboards setting- hard ware keyboard–turn off the toggle of switch languages using caps lock', then you can change between lowercase and uppercase by press the caps lock key.

**\*How to do if the space bar doesn't work?**

1. You can try below settings firstly: Settings/Accessibility/Keyboards/Full Keyboard Access/Commands/

2. Then change settings for "Space" from "activate' to "Clear". If it comes back, then you can also turn off full keyboard access.

3. 0nce it is cleared, the space bar would work fine.

**\*How to do if some keys don't work?**
Some of the keys do not work,please try to reset the keyboard by pressing and hold the combination key"L+S+Z" for 3s, you'll see the indicator flash once. It shows the keyboard has been reset. After resetting the keyboard, please pair the keyboard with your iPad again.
\*If there is delay after you press keys, please kindly check one of
**iPad Settings as below:**
Settings/Accessibility/Keyboards/Slow Keys Off
Settings/Accessibility/Keyboards/Slow Keys On 0.1 Seconds
**\*If there is repeated characters after you press certain key, please kindly check one of ipad Settings as below:**
Settings/Accessibility/Keyboards/Key Repeat On 0.1
SecondsSettings/Accessibility/Keyboards/Key Repeat Off
**\*Be sure that touchpad can be used on your iPad as below steps:**

1. You need to complete below settings:

   Settings/Accessibility/Touch/Assistive Touch/AssistiveTouch On

2. Make sure your iPad Software Version is up to 14.6 or above version.

3. Choose right "Keyboard" on your iPad

   General/Keyboard/Keyboards/English(US)/QWERTY

**Note:**
The second settings only can be set after keyboard connects to you iPad successfully.
**\*How to updating your iPadOS to 14.6 ?**
To upgrade your iPadOS to the leatest version:

1. Open your device's Settings > General > Software Update.

2. Tap Download and Install.

\*If you see Resume Download, tap that instead

| Settings | ‹ General | About | |
|---|---|---|---|
| ◎ General | | Name | iPad |
| ▣ Control Center | | Software Version | 14.6 |
