Tips

Welcome to use the GPS TRACKER products of Keelin series produced by EELINK ;

1. Traffic, SMS, Calls and other SIM card service fee charged by operators.

2G SIM Card

(Open GPRS/Call ID,Only support GSM,do not support CDMA/WCDMA)

2. GPS positioning is based on the GPS satellites in space to locate, try to use the product outdoors, near the window, in order to ensure the normal use of the product and precise positioning.
3. If there is no GPS signal, positioning through base station, positioning accuracy will be reduced (depending on the number and density of base station nearby).
4. Standby time depends on the GPS signal , GSM signal status, traffic, etc., a combination of using factors determines the standby time.
5. The following conditions will affect the product features: (1)No SIM or SIM card arrears (2)GPS / GSM no signal (3)battery runs out
