**Contents**

**EGLOO SC-421P Easy and Smart Security Camera**

## Product Information

### Specifications

- Compliance: FCC Part 15
- Interference Level: Class B Digital Device

### FCC Compliance Statement

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

### FCC Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to correct the interference by one of the following measures:

### FCC Caution
Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

## Product Usage Instructions

1. Read and understand all instructions provided in the user manual before operating the product.
2. Ensure compliance with FCC rules and regulations.
3. Install the product in accordance with the provided instructions.
4. Connect the product to a power source using the appropriate power cable.
5. Follow the specific instructions for connecting the product toother devices, if applicable.
6. Turn on the product and follow any additional setup procedures outlined in the user manual.
7. Use the product as intended, following any guidelines or limitations specified in the user manual.
8. If experiencing interference with radio or television reception, turn the product off and on to determine if it is the cause. If interference persists, follow the recommended measures to correct the interference as stated in the FCC Interference Statement.
9. Avoid making any changes or modifications to the product thathave not been expressly approved by the responsible party for compliance.

## FAQ

**Q: What does FCC compliance mean?**
**A:** FCC compliance means that the product meets the regulations and standards set by the Federal Communications Commission (FCC) in the United States.

**Q: How can I determine if the product is causing interference to radio or television reception?**
**A:** To determine if the product is causing interference, you can turn it off and on. If interference persists when the product is on, it may be causing the issue.

**Q: What should I do if the product is causing harmful interference?**
**A:** If the product is causing harmful interference to radio or television reception, you are encouraged to follow the measures outlined in the FCC Interference Statement to correct the interference.
