Connect the Bluetooth

For the first-time connection, change to Bluetooth mode and press the M key (Switch Mode) button. Turn on Bluetooth mode on a mobile device, search for “EBS10” and pairing. There will be a prompt sound after the pairing is successful.

Disconnect Bluetooth

Method 1: Press and hold M Key (Switch Mode)

Method 2: press and hold “BT” button above the remote control.

Connect 2 units at the same time

Press and hold on the play/pause button for about 3 seconds Complete the same step settings; If you need to disconnect the synchronization, you can press and hold on the Play/Pause button for about 3 seconds.

Tips: It is recommended to put the two speakers nearer before synchronization for a smoother operation.

FM Selection Mode

Long press the Play/Pause button for up to 3 seconds. Speaker will auto search for the FM channel. Once done, press on Next or Previous bottom for FM channel selection.

Tips: Please keep this card for warranty purposes

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance 20cm between the radiator and your body.
