Q8 Wireless Intercom Headset System

Taking Q8 operation as an example other products operate the same

Note: The MESH function of the device is not activated cannot be used, the APP cannot be connected, and it can only be used as a normal Bluetooth headset.

Download the EJEAS APP in the mobile app store or the EJEAS official website.

 www.ejeas.com

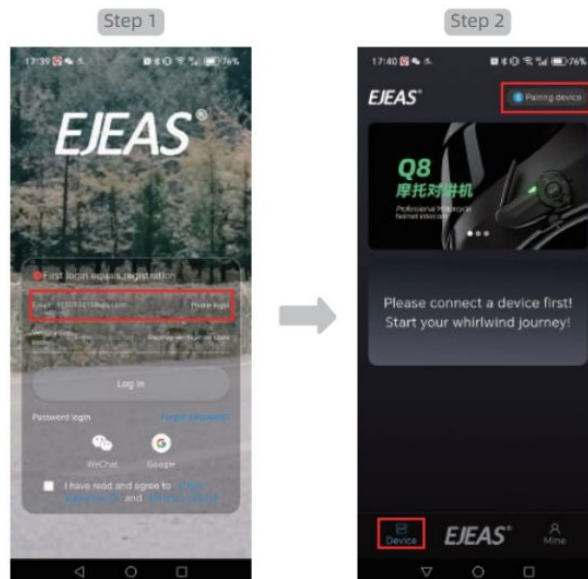

Android phone activation process

Log in to EJEAS APP > Devices > Pairing devices in the upper right corner > Click on the top search > Find the corresponding model in the list > Click Pairing > Pairing Successfully will automatically return to the device page (proves successful activation). If the pairing fails, the prompt will be: The device activation failed.

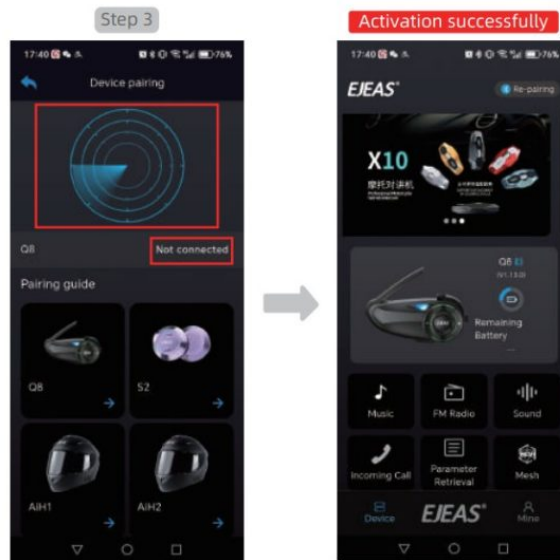

Step 1

Log in to the EJEAS APP (you need to use the email verification mode for the first login and get the verification code to verify and log in).

Step 2-3

The device turns on and enters Bluetooth pairing mode, please refer to the instructions for specific operating procedures.

Apple phone activation process

Download the EJEAS APP in the mobile app store or the EJEAS official website.

First enter the mobile phone system > Settings > Bluetooth > Find the corresponding model and click the pairing operation.

Log in to EJEAS APP > Devices > Pairing devices in the upper right corner > Click on the top search > Find the corresponding model in the list > Click Pairing > Pairing Successfully will automatically return to the device page (proves successful activation).

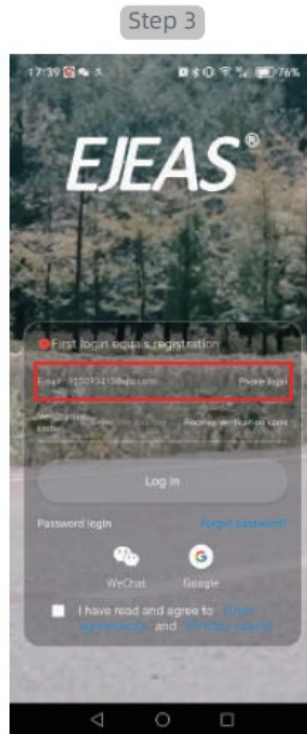

Step 1-2

First enter the mobile phone system > Settings > Bluetooth > Find the corresponding model and click the pairing operation.

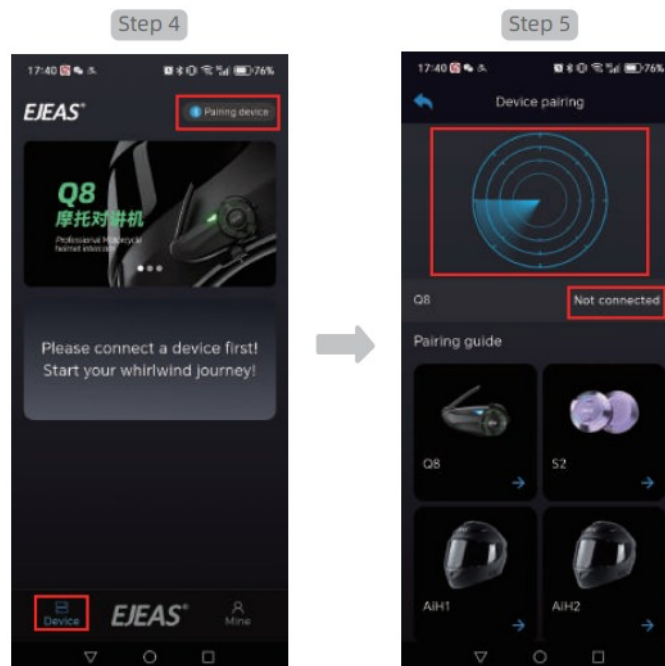

Step 3

Log in to the EJEAS APP (you need to use the email verification mode for the first login and get the verification code to verify and log in).

Step 4-5

The device turns on and enters Bluetooth pairing mode , please refer to the instructions for specific operating procedures.

Activation successful
