### Friendly Tips To Get Better Effect on This Bug Zapper

1. please turn it on 2-3 hours in advance, and Keep the house lighting off and close the windows and doors.
2. Please put the bug zapper in a dark place while working for optimal effect, please use it continuously for 5-7 days.
3. When powered by mobile power bank or emergency supply in outdoor, Please connect the 5V 2A Output port.
4. During use, the pest trap should be placed at a height of about 5-6.5ft and avoid interference from other light sources.
5. Works best for catching mosquitoes, flies, gnats, fruit flies. Set up the insect trap as close to the insects as possible such as fruit, food, plants, or trash bin.
6. Cleaning & Maintenance: please clean it up weekly with the cleaning brush, and use it after drying.
7. Do not touch the electrical grid with wet hand or electricity conducting materials.
