Electronics Record Player Bluetooth Turntable with Built-in Speaker

BEFORE USING THE UNIT

- As the unit may become warm during operation, always leave sufficient space around the unit for ventilation.
- The voltage supplied to the unit should match the voltage as printed on the rear panel. If you are in any doubt regarding this matter, consult an electrician.
- Choose the installation location of your unit carefully. Avoid placing it in direct sunlight or close to a source of heat. Also avoid locations subject to vibrations and excessive dust, heat, cold or moisture.
- Do not place the unit on an amplifier/receiver.
- Do not open the cabinet as this might result in damage to the circuitry or electrical shock. If a foreign object should get into the unit, contact your dealer or service company.
- When removing the power plug from the wall outlet, always pull directly on the plug, never yank the cord.
- To keep the laser pickup clean, do not touch it, and always close the disc tray.
- Do not attempt to clean the unit with chemical solvents as this might damage the finish. Use a clean, dry cloth.
- Keep this manual in a safe place for future reference.

## DO NOT MOVE THE UNIT DURING PLAYBACK

- During playback, the disc rotates at high speed.
- Doing so may damage the disc or the unit.

WHEN MOVING THIS UNIT

When changing the unit's location or packing the unit for moving, be sure to remove the record or disc. Moving this unit with the record or disc loaded may result in damage to this unit. If the unit is to be packed and moved a great distance, it is also advisable to tighten the turntable transport locking screw.

HANDLING RECORDS

- Do not touch the record's grooves. Only handle records by the edges or the label. Make sure your hands are clean. Skin oils from even clean hands can leave a residue on the record surface that will gradually deteriorate the quality of your record.

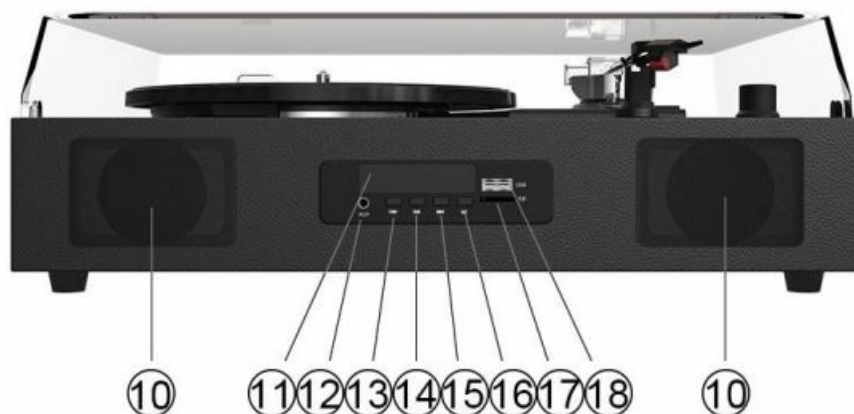

- Should the record become dirty, gently wipe the surface in a circular motion, using a soft anti-static cloth.
- Keep your records away from dust. Keep them in a cool, dry place.
- To avoid dust and scratches, keep records in their sleeves and jackets when not in use.
- Store records upright on their edges. Records stored horizontally will eventually bend and warp.
- Do not expose records to direct sunlight or high humidity and temperature. Long exposure to high temperatures will warp the record.
- Do not store your records in the trunk of your car. The temperature in a closed trunk can ruin your collection.
- Store records in an area with a stable temperature and low humidity.

BEFORE STARTED General

- Plug in the original DC adapter into the power strip or wall outlet instead of your own.

- Clean the vinyl records with cleaning kits before using it

- Check the needle if it's in the right position or in good condition, and replace it if it's skipping or damaged
- Dust cover needs to stay open when playing a 10″ and 12″ vinyl record.
- Doesn't support Bluetooth output or connection to Bluetooth speakers.
- Turn to the TROUBLESHOOTING section or technical support if you need help.

33 1/3 RPM 12" DIAMETER 78 RPM 10" DIAMETER 45 RPM 7" DIAMETER

Adjust the Speed switch to the RIGHT SPEED

- Playing a record

1. Before starting, remove the protective shell from the stylus as illustrated below:

Plastic protective cover (White color)   clip

2. Unlock the tone arm from the holder as illustrated above.
3. Place the record on the centre spindle. For a 7-inch record in diameter, place the embedded core adapter(3) on the center spindle then place the record on it.
4. Select the Speed (6) to 33 45 or 78 to match the play speed of the record.
5. Set the auto stop control (7) to ON if you want the turntable to stop turning when it has reached the end of the record. If the switch is set to OFF , the turntable will continue turning.
6. Turn on the Power Switch /Volume control knob(8), the panel (11) displays "-Pho" as in phono mode
7. Raise up the Lever (4) to lift the tone arm then move it on the top of the desired location of the record. Release down the Lever (4) to put the tone arm on record. Record Playing will start automatically.
8. When finished playback, the unit will auto stop turning when Auto stop switch at the " ON" position. If Auto stop switch at the "OFF' position, the turntable will continue turning at the end of the record.
9. Raise up the Lever (4) to lift the Tone Arm then put the lever back near the Holder. Release down the Lever, the arm will drop down near the holder then lock the Tone Arm in the Holder.

NOTED TIPS :

- Before switching functions by pressing "M" button(16) Please stop the turntable by putting the cartridge on the holder, The instructions as above, then it allows to switch to other modes.
- Clean your old/new vinyl records and let the stylus needle in the middle as not bent or diverged.
- Use a RCA output cable (not included) for connecting to POWERED SPEAKERS for louder sound.
- Turn off the "auto-stop" switch If the turntable doesn't move when power on

External Speakers Connection (support Powered Speaker connection via RCA cable)

You can listen to vinyl records or phone music with the built-in speakers when connected, you may also wish to connect it to your home stereo system. Connect the "audio out" RCA ports (21) to the "audio input" on your mixer or Powered Speakers using an RCA cable (not included). Red connector to red jack; White to white

Bluetooth function

For first-time use or re-pairing to a new BT Device, pairing it as below:

- Turn on the Power Switch (8), then press the " M" button (16) till it enters into Bluetooth mode. The display shows (11)" bt".Note: The display (11) shows "-Lod" when searching.
- Turn on the Bluetooth function of your device and enable the search or scan feature to find the Bluetooth pairing name "TE-2017" (Depends device's model number). Select "TE-2017" from the device list when it appears on your device screen. If required, enter the passcode "0000" to pair (link) with your device.
- It will have a beep sound if connected successfully, then you can play music from your Bluetooth device.

3. Stop recording. Press and hold the "M" button (16) or press the button (14) , It stop recording and save the recorded songs to USB or SD/TF card as the last song.
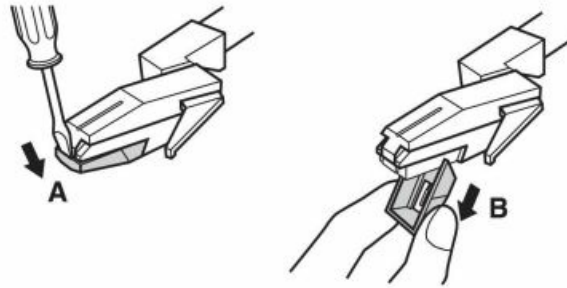

MAINTENANCE

How to replace the stylus

The stylus should last about 200-300 hours depending on the usage and maintenance condition . However, it is recommended that replace the stylus as soon as you notice a change in sound quality.(The stylus needle is universal and available on Amazon.com or Walmart.com marketplace)
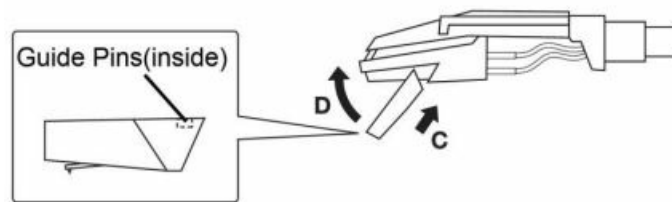

Removing an old stylus:

1. Set a screwdriver at the tip of the stylus and push down to the direction "A".
2. Pull the stylus out toward direction "B".

Installing a new stylus

1. Hold the tip of the stylus and insert the other edge by pressing toward direction "C".
2. Push the stylus up toward direction "D" until it locks at the tip.

Caution:

- Do not remove or bend the stylus.
- To avoid injury, do not touch the needle.
- Turn off the unit's power before you replace the stylus.
- Keep out of the reach of children.
- Handle with care, as the stylus is delicate. Use of a bent or broken stylus may damage the record and cause the turntable stylus to malfunction.
- Do not expose the stylus to extreme heat.

SPECIFICATIONS

Product Name	All-in-one Bluetooth Turntable Record Player
