Elementz®

Elementz FX-2330 TYPE-C HUB plus Wireless Display Adapter

Specifications:

- Product Name: USB-C/HDMI Transmitter and Receiver
- Resolution: 2K UHD 1920*1080@60Hz
- Network: WiFi 5GHz, 1T1R
- Ports: Transmitter Port – USB-C DP-Alt, Receiver Port – HDMI + USB-A (5V/1A power supply)
- Transmitter Size: 116*62*18mm
- Receiver Size: 1m
- Weight: Transmitter – 90g, Receiver – 25g
- Protocol: MacOS/Windows/Linux/Android/ChromeOS
- Features: HDCP, DRM streaming, USB-C Power Supply, 3*USB 3.1 Gen1 Port

Product Usage Instructions

- **Connection Setup:**

Connect the Transmitter (TX) to your device's USB-C port and the Receiver (RX) to your display's HDMI port.

- **Power Supply**

Ensure the USB-A port on the Receiver is connected to a power supply (5V/1A) for proper functioning.

- **Plug & Play:**

The device supports plug & play functionality, making it easy to set up and use without any additional software installation.

- **Switch On/Off**

The device can be easily switched on and off for convenience and power saving.

- **Compatibility**

This transmitter is suitable for devices that support TYPE-C DP-ALT output such as laptops, tablets, and smartphones.

- **Portability**

The compact design offers freedom of movement and allows for easy transportation.

- **Click & Share**

Enable presenters to share their screens seamlessly with just one click for efficient presentations.

- **Cable Management:**

Eliminate the need for extra cables and adaptors to keep workspaces organized and clutter-free.

FAQ

- **Q: What devices are compatible with the USB-C/HDMI Transmitter and Receiver?**

A: The transmitter is suitable for laptops, tablets, smartphones, and other devices that support TYPE-C DP-ALT output.

- **Q: Can the device be used with both Windows and Mac operating systems?**

A: Yes, the device is compatible with MacOS, Windows, Linux, Android, and ChromeOS operating systems.

USB-C Power Supply

- USB-C power supply which allows to share same adapter of your MacBook, iPad, Tablet and etc.
- Blessed by less accessory on a go.

Supports 3*USB 3.1 Gen1 Port

- Enhanced presentation convenience with storage extraction of USB drives from USB 3.1 ports.
- Ideal solution for any device without additional USB ports.

High-End Hardware Design for Professional & Efficient Wireless Projection

- Enhanced 5G WiFi capability with 1T1R high sensitivity antenna to deliver a stable wireless connection.
- High performance and faster SoC chip to sufficiently running 1080P 60Hz signal.
- High unit availability by adding HUB functions.

Built for Business, Engage with Your Audience

- ü One click for intuitive controls and effortless screen sharing
- ü Lower latency for delivering a glitch-free presentation
- ü Quickly switch from one presenter to another in 3 second

Enjoy Movies, Games and Music Along With Your Business Meetings

Long Range Transmission

Easily Extend Screen Sharing Distance

Support 5 Major Operating Sysetms

(Mac OS/ iOS/ Windows/ Android/ Linux)

*This transmitter is ONLY suitable for laptops, tablets, smartphones and other devices that support TYPE-C DP-ALT output.

Portability

Offer freesom of movement, anywhere.

Click & Share

Offer presenters seamless, one-click access to screen sharing.

No cable needed

Keep workspaces looking tidy by getting rid of unsightly cables and extra adaptors.

FCC Statment

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure statement

The device has been evaluatec to meel general RF exposure requirement. The device can be used in porlable exposure condition without restriction.
