metaCat Guide

metaCat brings cherished cat-human interactions to life with its three touch-sensitive points: the chin & chest, where you'll feel its gentle whining & playful panting; the head, triggering its signature barking and howling; and the back, where you'll sense metaCat playfully nuzzling you, accompanied by the warm sound of its heartbeat. Open the pocket under metaCat's belly, you will see the charging port and the three-stage switch.

Charge your metaCat with the provided a USB-C cable and you will see the blue light when successfully connected.

ON-MUTE-OFF Three-stage Switch

ON

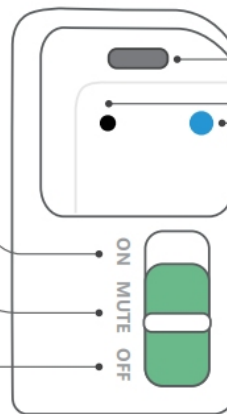

Move the switch to 'On' to wake up metaCat.

MUTE

Move the switch to 'mute' to play without sounds.

OFF

Move the switch to 'off' to turn off metaCat.

Type-C Charging Port

Maximum Input Current 1A*

Reset button

Insert it with a pin and press the reset button for 5s to reset the default settings of metacat.

Charging Status Indicator

Display a blue light to indicate charging status when in use.
