### Instruction on mounting and use

Closely follow the instructions set out in this manual. All responsibility, for any eventual inconveniences, damages or fires caused by not complying with the instructions in this manual, is declined. This appliance is intended to be used in households and similar applications such as: – staff kitchen areas in shop, offices and other working environments; – farm houses; – by clients in hotels, motels and other residential-type environments; – bed and breakfast-type environments.

**Note:** The parts marked with the symbol “(\*)” are optional accessories supplied only with some models or otherwise not supplied, but available for purchase.

### Caution

- Before any cleaning or maintenance operation, disconnect hood from the mains by removing the plug or disconnecting the mains electrical supply.
- Always wear work gloves for all installation and maintenance operations.
- This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved.
- Children shall not be allowed to tamper with the controls or play with the appliance.
- Cleaning and user maintenance shall not be done by children without supervision.
- The premises where the appliance is installed must be sufficiently ventilated when the kitchen hood is used together with other gas combustion devices or other fuels.
- The hood must be regularly cleaned on both the inside and outside (AT LEAST ONCE A MONTH).
- This must be completed in accordance with the maintenance instructions provided. Failure to follow the instructions provided regarding the cleaning of the hood and filters will lead to the risk of fires.

- Do not flambé under the range hood.
- Do not remove filters during cooking.
- For lamp replacement use only lamp type indicated in the Maintenance/Replacing lamps section of this manual. The use of exposed flames is detrimental to the filters and may cause a fire risk, and must therefore be avoided in all circumstances.
- Any frying must be done with care in order to make sure that the oil does not overheat and ignite.
- **CAUTION:** Accessible parts of the hood may become hot when used with cooking appliances.
- Do not connect the appliance to the mains until the installation is fully complete.
- With regard to the technical and safety measures to be adopted for fume discharging, it is important to closely follow the regulations provided by the local authorities.
- The air must not be discharged into a flue that is used for exhausting fumes from appliance burning gas or other fuels.
- Do not use or leave the hood without the lamp correctly mounted due to the possible risk of electric shocks.
- Never use the hood without effectively mounted grids.
- The hood must NEVER be used as a support surface unless specifically indicated.
- Use only the fixing screws supplied with the product for installation or, if not supplied, purchase the correct screw type.
- Use the correct length for the screws which are identified in the Installation Guide.
- In case of doubt, consult an authorized service assistance center or similarly qualified person.

## **WARNING!**

- Failure to install the screws or fix the device in accordance with these instructions may result in electrical hazards.
- Do not use with a programmer, timer, separate remote control system or any other device that switches on automatically.
- This appliance is marked according to the European directive 2012/19/EC on Waste Electrical and Electronic Equipment (WEEE).
- By ensuring this product is disposed of correctly, you will help prevent potential negative consequences for the environment and human health, which could otherwise be caused by inappropriate waste handling of this product.

The symbol  on the product, or on the documents accompanying the product, indicates that this appliance may not be treated as household waste. Instead, it should be taken to the appropriate collection point for the recycling of electrical and electronic equipment. Disposal must be carried out in accordance with local environmental regulations for waste disposal.

- For further detailed information regarding the process, collection and recycling of this product, please contact the appropriate department of your local authorities or the local department for household waste or the shop where you purchased this product.

**Appliance designed, tested and manufactured according to:**

- **Safety:** EN/IEC 60335-1; EN/IEC 60335-2-31, EN/IEC 62233.
- **Performance:** EN/IEC 61591; ISO 5167-1; ISO 5167-3; ISO 5168; EN/IEC 60704-1; EN/IEC 60704-2-13; EN/IEC 60704-3; ISO 3741; EN 50564; IEC 62301.
- **EMC:** EN 55014-1; CISPR 14-1; EN 55014-2; CISPR 14-2; EN/IEC 61000-3-2; EN/IEC 61000-3-3. Suggestions for a correct use in order to reduce the environmental impact: Switch ON the hood at minimum speed when you start cooking and kept it running for few minutes after cooking is finished. Increase the speed only in case of large amounts of smoke and vapor and use boost speed(s) only in extreme situations. Replace the charcoal filter (s) when necessary to maintain a good odor reduction efficiency. Clean the grease filter(s) when necessary to maintain a good grease filter efficiency. Use the maximum diameter of the ducting system indicated in this manual to optimize efficiency and minimize noise.

## Use

The hood is designed to be used either for exhausting  or filtering  version

## Installation

The minimum distance between the supporting surface for the cooking equipment on the hob and the lowest part of the range hood must be not less than 50cm from electric cookers and 65cm from gas or mixed cookers. If the instructions for installation for the gas hob specify a greater distance, this must be adhered to. The mains power supply must correspond to the rating indicated on the plate situated inside the hood. If provided with a plug connect the hood to a socket in compliance with current regulations and position in an accessible area, after installation. If it not fitted with a plug (direct mains connection) or if the plug is not located in an accessible area, after installation, apply a double pole switch in accordance with standards which assures the complete disconnection of the mains under conditions relating to over-current category III, in accordance with installation instructions.

## WARNING!

Before re-connecting the hood circuit to the mains supply and checking the efficient function, always check that the mains cables are correctly assembled.

## Operation

The hood is fitted with a control panel with aspiration speed selection control and a light switch to control cooking area lights.

## Maintenance

Clean using ONLY a cloth dampened with neutral liquid detergent. DO NOT CLEAN WITH TOOLS OR INSTRUMENTS. Do not use abrasive products. DO NOT USE ALCOHOL!

Grease filter – Carbon filter (\*): it is/they are mounted on the back of the grill and must be changed once a month. If the metal fats filter is envisaged in the model in your possession, this must be cleaned once a month with non-aggressive detergent manually or in a dishwasher at low temperature and short cycle.

The metal anti-fats filter might discolor by washing in a dishwasher but its filtering characteristics do not change at all.

Changing bulbs (Attention! Make sure that the bulbs are cool before touching them):

Use E14 3W max LED lamps only. For more details, check the enclosed leaflet “ILCOS D” (alphanumeric position “1d”).
