## ELPRO 645M-4 Cellular and WiFi IIoT Router

## Overview

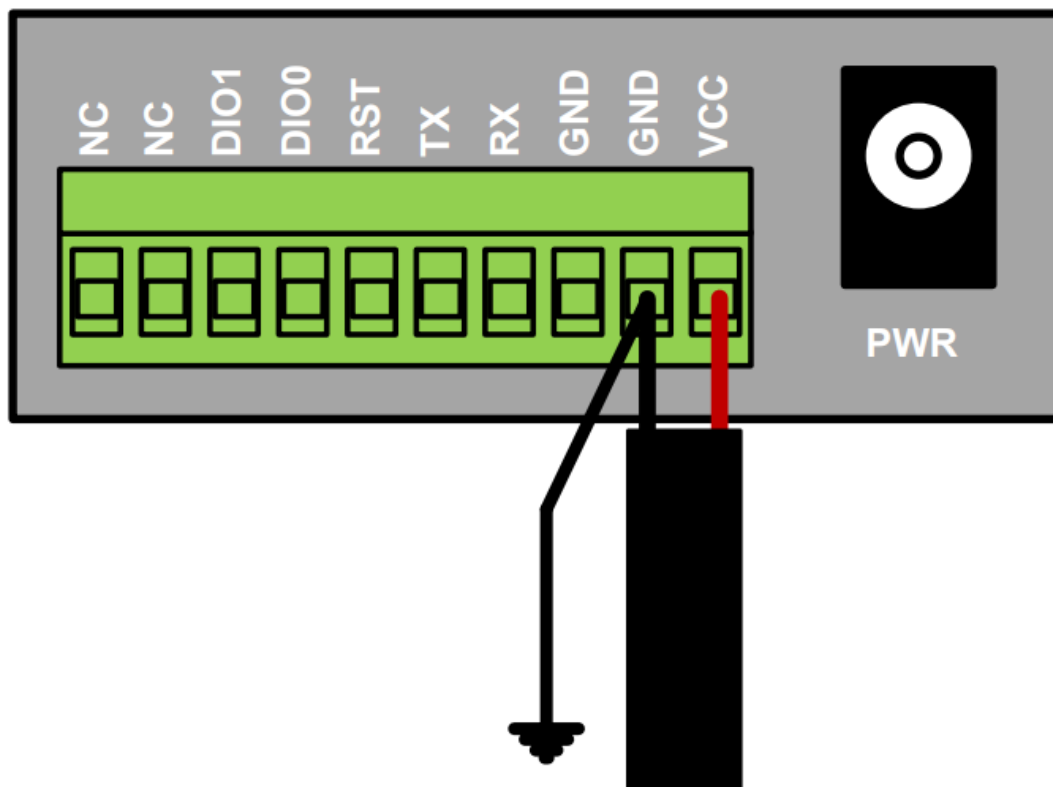

## Setting the basic connection and APN

- Remove the two screws from the small plate on the back of the modem to access the SIM card holder.
  - Slide the silver plate to the left to open the SIM holder.

- Insert the SIM card into the tray, close and lock firmly by sliding back to the right.

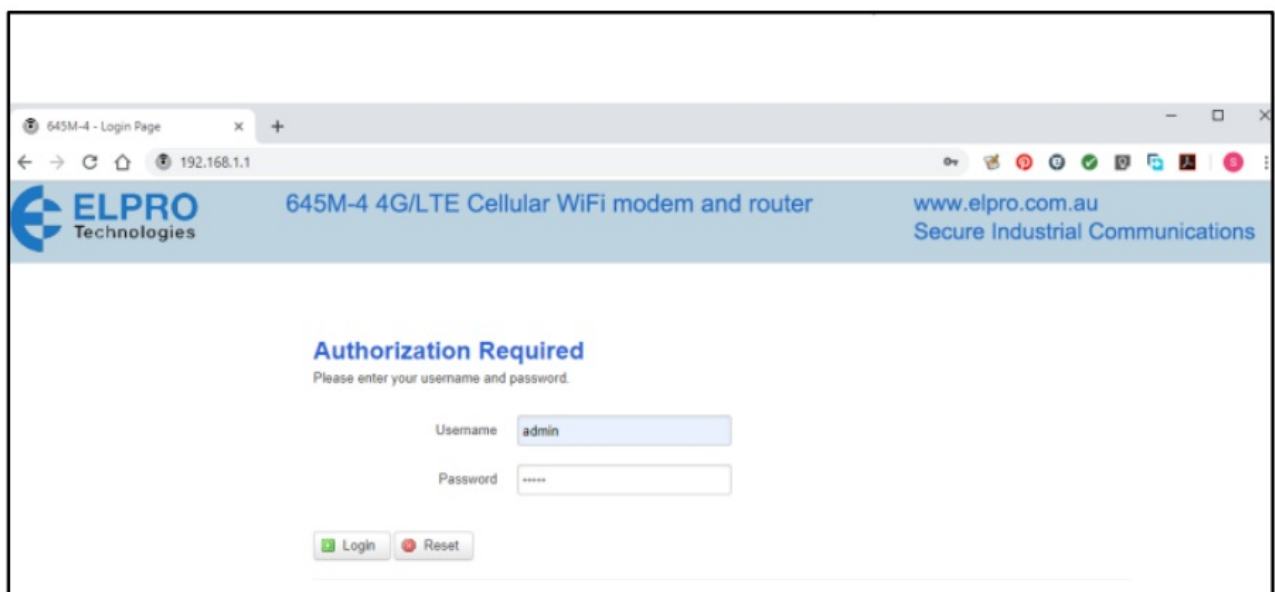

2. Before switching on the modem, please ensure the antennas are securely connected and connect the 5-40 VDC power supply to the VCC & GND terminals

3. Connect the Modems LAN port to a PC via an RJ45 Ethernet cable. Set the PC to obtain an IP address automatically from the modem router. The PC will get an IP address in the range of 192.168.1.XXX.

4. Open the Web browser and type in 192.168.1.1 into the Address bar. A Login window will appear, enter the login details as: Username = admin and Password = admin

5. From first connection after a factory default (Out of the Box) you will see a Setup Wizard . Fill in the details on each tab and then press the “Finish” button to complete.
- First Tab is the Passwords, Time zone, Modem Name and Language.
  - Second Tab is the Mobile connection settings, enter the APN that your provider has said to use with your SIM card, i.e “telstra.extranet”, “[m2mone.com.au](http://m2mone.com.au)”, etc.
  - Third Tab is the LAN IP address you wish to use.
  - Forth Tab is WiFi, if it is not used then deselect otherwise fill out the appropriate settings and then press “Finish”
6. When all Settings are configured navigate back to: Status > Overview page and the Cellular Status should show “Up”

## Mobile 1

Cellular Status	Up
IP Address	123.209.121.70/255.255.255.252
DNS 1	10.4.58.204
DNS 2	10.4.130.164
Cell Modem	QUECTEL_EC21 (2C7C_0121 )
IMEI/ESN	864292040486043
Sim Status	SIM Ready
Strength	 18 / 31, dBm : -81

## Dimensions

## NOTES

- ALL connections must be SELV (Safety Extra Low Voltage <50V AC & <120V DC)

- **WARNING – Explosion Hazard – Do not Disconnect equipment while the circuit is live or unless the area is known to be free of ignitable concentrations.**
- “GND” terminal must be connected to EARTH / GROUND as close as practical to the unit.
- To comply with FCC RF Exposure requirements in section 1.1310 of the FCC Rules, antennas used with this device must be installed to provide a separation distance of at least 45 cm (17 inches) from all persons.

## Frequently Asked Questions

- **Q: What is the default IP address for accessing the router’s configuration?**  
A: The default IP address is 192.168.1.1
- **Q: How do I reset the router to its factory default settings?**  
A: Press the reset button for 3 seconds to restore the router to factory default settings.
- **Q: Can I use the LAN port as a secondary LAN connection?**  
A: Yes, the LAN port can be used as a secondary LAN connection if needed.
