BREVILLE RECOMMENDS SAFETY FIRST

At Breville, we are very safety conscious. We design and manufacture consumer products with the safety of you, our valued customer, foremost in mind. In addition, we ask that you exercise a degree of care when using any electrical appliance and adhere to the following precautions.

IMPORTANT SAFEGUARDS

READ ALL INSTRUCTIONS BEFORE USE AND SAVE THEM FOR FUTURE REFERENCE

- Carefully read all instructions before operating the appliance and save for future reference.
- Before use fully unwind the power cord.
- Always use the Citrus Press on a dry, level surface.
- Remove any promotional stickers before using the Citrus Press.
- Always make sure the Citrus Press is properly assembled before plugging into the outlet and turning on the appliance. The appliance will not operate unless properly assembled.
- Always turn the appliance OFF at the ON/OFF button, then remove the plug from the power outlet if the appliance is left unattended, not in use, if moved or dismantled for cleaning or when storing.
- Do not let the cord hang over the edge of a table or counter, touch hot surfaces, or become knotted. Do not place this appliance on or near a hot gas or electric burner, or where it could touch a heated oven.
- Do not leave the appliance unattended when in use.
- Use caution when operating the appliance – do not place hands or fingers near moving or rotating parts.
- Avoid placing hands or fingers near Juicing Press Arm mechanism at rear of the Motor Base when moving Juice Press Arm into the upright position.
- This appliance is not intended for use by children or by persons with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge.
- Close supervision is necessary when any appliance is used near children
- Children should be supervised to ensure that they do not play with the appliance.
- Do not immerse the power cord or motor base in water or any other liquid.
- This appliance is for household use only. Do not use this appliance for anything other than its intended use. Do not use in moving vehicles or boats. Do not use outdoors.
- The use of accessory attachments is not recommended by Breville and may cause a risk of injury to persons, fire or electric shock

- To eliminate a choking hazard for young children, remove and safely discard the protective cover fitted to the power plug of this appliance.
- This appliance has a polarized plug. To reduce the risk of electric shock this plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not modify the plugin anyway.
- Keep hands, fingers, hair, clothing as well as spatulas, and other utensils away from the appliance during operation.
- Do not use the Citrus Press for anything other than food and/ or beverage preparation.
- Keep the appliance clean. Refer to care and cleaning.
- Strictly follow cleaning and care instructions.
- Regularly inspect the supply cord, plug, and actual appliance for any damage. If found damaged in any way, immediately cease use of the appliance and call Breville Consumer Service.

IMPORTANT SAFEGUARDS FOR ALL ELECTRICAL APPLIANCES

- Fully unwind the power cord before use.
- Do not let the power cord hang over the edge of a countertop or table, touch hot surfaces or become knotted.
- To protect against fire, electrical shock, and injury to persons, do not immerse the appliance, motor base, cord or plug in water or any other liquid.
 - The appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety
- Children should be supervised to ensure that they do not play with the appliance.
- This appliance is for household use only. Do not use this appliance for anything other than its intended use. Do not use in moving vehicles or boats. Do not use outdoors. Misuse may cause injury
- Turn the appliance OFF, then unplug from the outlet when not in use, before assembling or disassembling parts and before cleaning.
- To unplug, grasp the plug and pull from the outlet Never pull from the power cord.

BREVILLE ASSIST' PLUG

Your Breville appliance comes with a unique Assist™ Plug conveniently designed with a finger hole in the power plug for easy and safe removal from the wall outlet. For safety reasons it is recommended you plug your Breville appliance directly into its own electrical outlet on a dedicated circuit separate from other appliances. If the electric circuit is overloaded with other appliances, your appliance may not function properly. Use in conjunction with a power strip or extension cord is not recommended.

SHORT CORD INSTRUCTIONS

Your Breville appliance is fitted with a short power supply cord as a safety precaution to prevent personal injury or property damage resulting from puffin; tripping or becoming entangled with a longer cord. Do not allow children to use or be near this appliance without close adult supervision. Longer detachable power strips or extension cords are not recommended but may be used if care is exercised. If an extension cord is used, (1) the marled electrical rating of the cord set or extension cord should be at least as great as the electrical rating of the appliance, (2) the cord should be arranged so that it will not drape over the counter-top or tabletop where it can be pulled on by children or tripped over unintentionally and (3) the extension cord must include a 3-prong grounding plug.

FOR HOUSEHOLD USE ONLY SAVE THESE INSTRUCTIONS

Components

Components

A. Juice Press Arm

The patented juicing handle features a unique triple hinged arm to ensure downward pressure throughout the juicing process to maximize juice yield.

B. Stainless Steel Filter (dishwasher safe)

C. Powerful

Motor Automatically starts when pressure is applied to the Juicing Cone.

D. ON/OFF Button

E. Cord Storage Wraps around and clips into position under Motor Base (not shown in picture).

F. Soft Grip Handle Makes juicing easy.

Rating Information 120V- 60Hz 110W

G. Fruit Dome

Is easily removed for cleaning (dishwasher safe)

H. Die-Cast Stainless Steel Juicing Cone Uniquely finned and undulating cone extracts the maximum juice from all sizes of citrus fruit. (dishwasher safe)

I. Juice Collector

Collects the juice to flow out the Juice Spout. (dishwasher safe)

J. Juice Spout Opens all the way for cleaning with anti-drip stop function.

K Double Stage Switching System Juicer will NOT operate unless it is correctly assembled for safety and performance.

Assembly

ASSEMBLING THE CITRUS PRESS

1. Pull the Juice Press Ann up and backward, away from the Motor Base, until fully extended.

2. Place the Juice Collector onto the Drive Shaft on top of the Motor Base, ensuring the Juice Spout fits into the semi-circular groove at the front of the Motor Base.

3. Insert the Stainless Steel Filter into the Juice Collector, aligning the indent with an arrow in the bottom of the Filter over the corresponding tab with an arrow in the Juice Collector.

4. Place the Juicing Cone onto the Drive Shaft and press down lightly to lock the Cone into position.

5. Insert the Fruit Dome onto the underside of the Juice Press Arm by aligning the tab on top of the Fruit Dome with the hole in the Juice Press Arm. Hold onto the Juice Press Arm and press the Fruit Dome up and backward until the Dome locks into position.

NOTE The Fruit Dome is keyed and can only be inserted in one way (this will ensure that it does not rotate through operation).

6. Ensure the Anti-drip Juice Spout is pushed down into the pouring position.

7. Place a suitable sized glass or jug underneath the Juice Spout

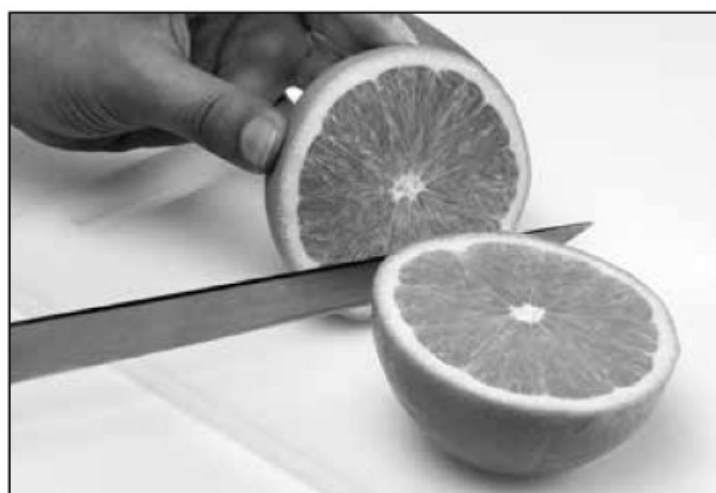

Functions

1. Ensure the Citrus Press is correctly assembled, and a glass or jug is placed under the Juice Spout before

juicing commences.

2. Cut the citrus fruit in half by cutting across the fruit segment; rather than across the tip ends, to ensure more efficient juicing.

NOTE Some fruits, such as lemons and tangelos, have knobby tip ends which require trimming for better contact with the Fruit Dome

3. Plug the power cord into a 110/120V power outlet, then press the ON/OFF button to ON.

4. Place a citrus fruit half, cut side down, onto the Juice Cone, and push down lightly onto the spikes

5. Grasp the Soft Grip Handle and slowly lower the Juice Press Arm and press down firmly until the Fruit Dome is in contact with the fruit skin. The motor will automatically start and the Juicing Cone will begin to rotate. The juice will be extracted from the fruit and flow through the Juice Spout into the glass. The pulp and seeds will collect in the Stainless Steel Filter.

6. The Citrus Press juices very quickly so each fruit half will be juiced in a few seconds. To automatically stop the motor, lift the Juice Press Arm up and backward to its extended position.

7. Remove the used fruit from the Juicing Cone. Empty excess pulp and seeds from Stainless Steel Filter as required. Repeat Steps 3-7 to continue juicing.

NOTE The Stainless Steel Filter should be emptied when full with pulp and seeds. The Filter can be emptied during juicing by turning the Citrus Press OFF at the ON/OFF button and carefully removing the Juicing

Cone and Filter. Clean and replace Stainless Steel Filter and Juicing Cone before continuing to juice. Do not allow the Stainless Steel Filter to overfill as this may prevent correct operation or damage the unit.

Disassembly

DISASSEMBLING THE CITRUS PRESS

1. Turn the Citrus Press OFF at the ON / OFF button, then unplug from the power outlet.

2. Pull the Juice Press Ann up and Pull the Juice Press Ann up and backward, away from the Motor Base, until fully extended. Close the anti-drip spout by flipping to up.

3. With the arm in the down position, remove the Fruit Dome by pressing the button marked EJECT. Let the Fruit Dome drop onto the Juicing Cone.

4. Lift the Juice Collector from the Motor Body with the Stainless Steel Filter, Juicing Cone, and Fruit Dome still in place. Remove the Cone and Filter from the Juice Collector over a sink for easier cleaning. Follow recommended Care and Cleaning guidelines.

STORAGE

Store the cleaned and reassembled Citrus Press in an upright position in a cool, dry place. Do not place any items on top of the Citrus Press while stored.

Care & Cleaning

- Always ensure that the Citrus Press is turned OFF at the ON/OFF button and the plug is removed from the power outlet before cleaning, disassembling, assembling and storing the appliance.
- Follow these instructions to clean all surfaces or parts that come into contact with food during juicing.
- For easy cleaning immediately after each use rinse removable parts under warm water to remove wet pulp. Allow parts to air dry before reassembling.
- For thorough cleaning after disassembling the appliance, all removable parts should be washed in hot soapy water or on the top shelf of the dishwasher. The Motor Base and Juice Press Arm should be wiped with a soft, damp cloth. All parts should be dried thoroughly before reassembling.
- Store the cleaned and reassembled Citrus Press in an upright position in a cool, dry place. Do not place any items on top of the Citrus Press while stored.

NOTE

- Rinse or wash all removable parts immediately after use. Dried citrus pulp is difficult to remove and may stain. If any staining does occur, wipe the discolored part(s) with undiluted dishwashing liquid, rinse and dry thoroughly.

NOTE

- Do not soak the Stainless-Steel Filter or other removable parts in bleach. Never immerse the motor base in water or any other liquid. Do not use harsh abrasives

HINTS & TIPS

THE INSIDE INFORMATION ON JUICE

Although juice drinks are usually developed with flavor, texture, and aroma at the forefront, the health benefits certainly add to the pleasurable taste experience. 70% of the nutrient content of fruit and vegetables is found in the juice. Liquids are an important part of a well-balanced diet and fresh juice is an easy source of vitamins and minerals. Juices are rapidly absorbed into the bloodstream, therefore, being the quickest way in which the body can digest nutrients. Citrus juice is renowned for its high content of Vitamin C and cold and flu-fighting capabilities. Freshly extracted juices should be consumed just after they have been made to avoid vitamin content loss.

PURCHASING AND STORAGE OF FRUITS

- Always use fresh fruit for juicing.
- Select fruit with firm, smooth skins and free of blemishes.
- Valencia oranges are ideal for juicing.
- Select medium-sized grapefruits, lemons and limes for easier juicing.
- Citrus fruits can be stored at room temperature in a dry area.
- More juice is obtained from fruit stored at room temperature.

Troubleshooting

POSSIBLE PROBLEM

SOLUTION

Will not work

- Switch not in the ON position
- Juice Press Arm not lowered
- Juicing Cone or Fruit Dome not assembled properly
- Stainless Steel Filter not assembled properly
