Elsner Technologies One Step Checkout Magento 2 Extension

Specifications

- Vendor: Elsner Technologies

- **Compatibility:** Magento 2
- **Features:** One-page checkout, guest checkout support, multiple payment methods, customizable themes, Ajax-based updates

Product Information

One Step Checkout Magento 2

The One Step Checkout Magento 2 Extension by Elsner Technologies streamlines the checkout process by consolidating all checkout steps into a single page. This user-friendly extension reduces cart abandonment, enhances customer satisfaction, and boosts conversion rates. It supports guest checkout, multiple payment methods, customizable themes, and Ajax-based updates for a seamless shopping experience.

Installation

1. **Download:** Purchase the One Step Checkout Magento 2 Extension from Elsner Technologies.
2. **Upload:** Unzip the downloaded file and upload it to `app/code/Elsnertech/OneStepCheckout` in your Magento 2 root directory.
3. **Run Commands**
 - `php bin/magento setup:upgrade`
 - `php bin/magento setup:di:compile`
 - `php bin/magento cache:clean`
4. **Verify:** Check Stores > Configuration > Sales > Checkout in the Magento Admin Panel to ensure the extension is installed.

Configuration

Access settings via Stores > Configuration > Sales > Checkout > One Step Checkout.

SETTINGS

General Settings

- **Enable:** Select Yes to activate or No to disable the extension.
- **Title:** Set a display name for the checkout page (e.g., "One Step Checkout").
- **Enable Guest Checkout:** Select Yes to allow guest checkout without requiring account creation.
- **Theme:** Choose from two mobile-optimized themes (default or customizable).

Checkout Settings

- **Display Delivery Date:** Enable to show delivery date and time options with a date picker.
- **Order Comments:** Allow customers to add comments during checkout.
- **Supported Payment Methods:** Enable compatibility with popular payment methods (e.g., PayPal, Stripe, Monetico).
- **Ajax Updates:** Enable Ajax-based updates to avoid page reloads when customers modify checkout fields.

Advanced Settings

- **Debug Mode:** Select Yes to enable logs in var/log/elsner_onestepcheckout.log for troubleshooting.
- **Sort Order:** Set the display order of the checkout option in the checkout process.
- **Save:** Click Save Config and refresh caches in System > Cache Management.

FAQ

What are the key benefits of using the One Step Checkout Magento 2 Extension?

The extension streamlines the checkout process, reduces cart abandonment, enhances customer satisfaction, boosts conversion rates, supports guest checkout, offers multiple payment methods, provides customizable themes, and uses Ajax-based updates for a seamless shopping experience.
