EMERSON

EMERSON KR8-315 Series Embedded Platform

What's in the box?

Make sure you receive all items of your shipment:

- One KR8-315 Series enclosure
- One power adapter
- One mounting adapter
- One cable mounting tie
- Screws
- One printed copy of Quick Start Guide (this document)
- One printed copy of Safety Notes Summary
- Any other optional item that you ordered

When installing or servicing the enclosure or accessories, strictly observe the safety precautions in the Safety Notes Summary. Otherwise, personal injury or property damage may occur.
Prepare the installation site

- The KR8-315 series has three variants KR8-315, KR8-315-ET and KR8-315E. For information on the environmen-tal and power requirements of the three variants, see the KR8-315 Series Installation and Use manual.
- The KR8-315 Series must be in good condition, without defects such as oxidation, chemical corro-sion, missing
components, or trans-portation damage.

- Confirm the position where the KR8-315 Series will be installed.
VESA mounting

1. Fasten the 4pcs M3 shoulder screws to enclosure.

2. Install the mounting adapter to back of monitor, using the 4pcs M4x10mm screws.

3. Mount the enclosure to the adapter fastened on the monitor.

The above shown mounting direction is recommended for best efficiency of heat dissipation.
Wall mounting

1. Fasten the 4pcs M3 shoulder screws to enclosure.

2. Install the mounting adapter to the wall, using the 4pcs M4x10mm screws.

3. Mount the enclosure to the adapter fastened on the wall.
