Welcome!

For units equipped with Enertech EPIC Connected Controls, continue with this Quick Start Guide.

If my unit does not have EPIC Connected Controls equipped, how ? do I get them? Stay tuned, on location upgrade kits coming soon!

1. Enertech EPIC Connected Controls are powered by the **myUplink** mobile app. To install the **myUplink** app, scan to the QR code below with your mobile device.

Download the myUplink App

Create a myUplink account

2. Open the **myUplink** app on your device.
3. Tap **Register**
4. Fill out the 2 page registration form and finish by tapping **Register**
5. A confirmation e-mail will be sent to you. Go to your e-mail account and tap the link to complete the account setup. If you do not receive the e-mail, check your junk folder.

Preparing your EPIC Connected Controls for WiFi network connection

6. From the Welcome screen, tap “**Add System**”.
- Note:** Your Internet Gateway will display a spinning white color ring.
7. Tap “**No, set up the device**”.
 8. Tap “**Yes, scan the sticker**”. This will launch the myUplink in app camera.
 9. Gently push and slide up on the Internet Gateway to remove it from the unit control box. Note: The Internet Gateway has (3) separate “keyholes” that mount to shoulder type screws for added security.
 10. Turn the Internet Gateway around to view the back of the device. The QR code will be scanned from the app during setup.

Connecting your EPIC Connected Controls to your WiFi network

11. Position the camera over the QR code. Once it reads the QR code, the app will ask to join the Internet Gateway network. This will connect the phone directly to the Internet Gateway. Tap “Join”
12. After you tap “Join”, the next screen will display “Connecting to Device...”.

CONGRATULATIONS!

You have successfully registered and setup your new Enertech EPIC Connected Controls.
