Enido KB01 Color Changing LED Candles

Launch Date: June 9, 2019

Price: \$28.89

Introduction

The Enido KB01 Color Changing LED Candles are a new, safe option to regular candles. Their beautiful glow is meant to make any room feel better. These candles can be used inside or outside because they are made of high-quality plastic and look like real wax. They have the warmth and charm of real candles without the dangers that come with open flames. These color-changing candles come in a variety of heights, so you can place them in different parts of your home or event to make a stunning visual effect. The remote control is easy to use and lets you change the colors, brightness, and timer settings without any problems. The Enido KB01 candles make the room feel warm and inviting, whether you're having a party, celebrating a holiday, or just spending a cozy night. Because they are water-resistant, they can be used at outdoor events and will still shine brightly after being exposed to the weather. Energy-efficient LED lights promise to work for a long time and light up your space for hours on end. These candles can be used for any event because they have different lighting modes and effects. This makes them a great choice for adding to your home's decor. The Enido KB01 Color Changing LED Candles create a beautiful atmosphere that will make any space feel more joyful and classy.

- **Power Source:** Battery Powered (requires 2 AA batteries per candle, not included)

Package Includes

- 3 x Enido KB01 Color Changing LED Candles (varied sizes)
- 1 x User manual
- 1 x Remote control (if applicable)
- 1 x Warranty card

Features

- **Color Changing:**

The Enido KB01 candles offer an enchanting color-changing feature that automatically transitions through a spectrum of colors. This effect can be easily controlled with the included remote, allowing you to set the mood for any occasion—whether you want a soothing blue for relaxation or vibrant red for celebrations.

- **Realistic Appearance:**

Made from real wax, these candles mimic the look of traditional candles, including a realistic flickering effect. This design provides an authentic candle experience without the safety risks associated with open flames, making them perfect for creating a warm ambiance.

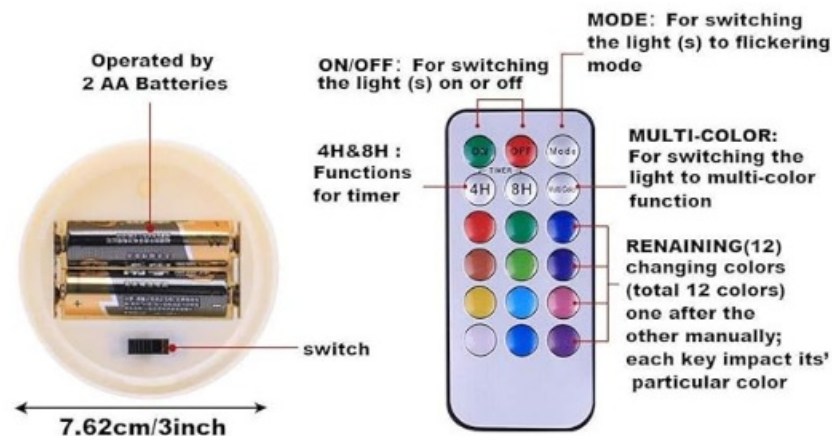

- **Safety:**

With no flame, smoke, or mess, the Enido KB01 candles are a safe alternative for homes with children and pets. You can place them anywhere in your home without worrying about fire hazards, spills, or soot, allowing for a worry-free experience.

- **Remote Control:**

Each set comes with a user-friendly remote control that allows you to easily adjust the candles' colors,

brightness, and timer settings from a distance. This convenience enhances usability, especially for hard-to-reach places or during gatherings.

- **Long Battery Life:**

Powered by 2 AA batteries (not included), the energy-efficient LED lights in these candles can shine for up to 50,000 hours. This longevity means you won't have to frequently change batteries, making them a practical choice for regular use.

- **Weatherproof & Realistic:**

Designed for both indoor and outdoor use, the Enido Outdoor LED Candles are made of high-quality resin plastic that is resistant to the elements. They can withstand rain and sunlight, making them ideal for outdoor events, patios, or garden decorations without the worry of melting or damage in warm weather.

- **Flame Simulation Technology**

These candles utilize flame simulation technology that creates a flickering effect, enhancing the illusion of real flames. This feature makes them perfect for adding a romantic touch to weddings, parties, or cozy evenings at home.

- **Remote Control & Automatic Timer:**

Each set includes two 18-key remote controls, allowing for the convenient operation of multiple candles. The candles also feature a 4/8-hour timer mode, which can be set to cycle every 24 hours, ensuring that your ambiance can be maintained effortlessly.

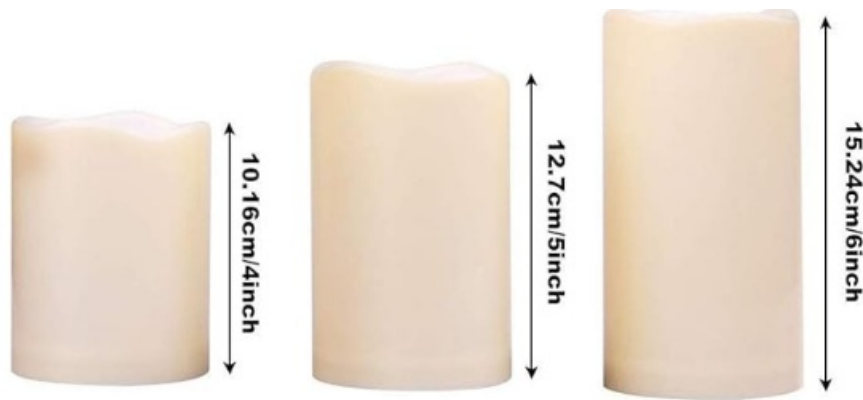

- **Energy Saving:**

The Enido KB01 set includes nine water-resistant candles, providing excellent value and versatility for different settings. The powerful LEDs are designed for long-term use, providing a cost-effective lighting solution without compromising on quality.

- **Versatile for Any Occasion:**

Whether for weddings, parties, home décor, bars, or festivals, these flameless candles create a romantic atmosphere with ease. Enjoy any event peacefully without the concerns associated with traditional candles.

Dimension

Usage

1. Decorative Ambiance:

- **Home Décor:** Use the candles as decorative pieces in living rooms, bedrooms, or entryways. Their color-changing feature adds a dynamic element to home décor.
- **Special Occasions:** Perfect for weddings, birthday parties, holidays, and romantic dinners. Set them up on tables, mantles, or outdoor settings to create a charming atmosphere.

2. Indoor Use:

Place the candles on tabletops, shelves, or windowsills to enhance your indoor living space. They can serve as night lights or ambient lighting for cozy evenings.

3. Outdoor Use:

Utilize the weather-resistant feature for outdoor gatherings such as barbecues, garden parties, or festive celebrations. Their ability to withstand the elements makes them ideal for patios and decks.

4. Remote Control Functionality:

Use the provided remote control to easily switch between colors, adjust brightness levels, and set the timer for automatic operation, allowing you to control the ambiance without needing to manually adjust each candle.

5. Timer Settings:

Take advantage of the 4/8-hour timer functionality to automate the candles. Once set, the timer will cycle every 24 hours, providing hassle-free operation.

Care and Maintenance

1. Cleaning:

- **Dusting:** Use a soft, dry cloth to gently wipe the surface of the candles to remove dust. Avoid using wet cloths or cleaning agents that could damage the wax-like finish.
- **Avoid Excessive Moisture:** Although the candles are water-resistant, excessive exposure to moisture should be avoided to maintain their appearance and functionality.

2. Battery Replacement:

- **Check Battery Levels:** Monitor the brightness and performance of the candles. If they begin to dim or flicker, it may be time to replace the batteries.
- **Installation:** Ensure that you insert the batteries correctly, following the +/- indicators inside the battery compartment.

3. Storage:

Proper Storage: When not in use, store the candles in a cool, dry place to prevent any warping or damage.

- Avoid direct sunlight and high temperatures to maintain their shape and color.
4. **Avoiding Overheating:**
- Ensure that the candles are not placed near direct heat sources, as this could affect the plastic material and overall performance.
5. **Remote Control Care:**
- Keep the remote control away from moisture and excessive heat, and replace its batteries as needed to ensure continuous operation.

Troubleshooting

Issue	Possible Cause	Solution
Candle does not turn on	Batteries are dead or improperly inserted	Replace batteries and ensure correct orientation
Color-changing function not working	Remote control malfunction or battery issue	Check remote batteries; ensure the remote is paired with the candles
Flickering is inconsistent	Low battery power	Replace batteries for consistent performance
The remote control is unresponsive	Out-of-range or blocked signal	Ensure the remote is within range; remove any obstacles
The light source not bright	Low battery power	Replace batteries; ensure contacts are clean
Water damage	Exposure to water when not intended	Ensure candles are used according to instructions; dry thoroughly if wet
Timer function not working	Timer mode not set correctly	Set the timer according to the user manual instructions
Overheating	Blocked ventilation or extended use	Ensure candles are placed in a well-ventilated area and avoid continuous use beyond the recommended duration

Pros and Cons

Pros	Cons
Safe alternative to traditional candles	Requires batteries
Beautiful color-changing feature	The remote control may need new batteries
Timer function for convenience	Limited outdoor use
Realistic appearance	Not suitable for direct sunlight
