ON	permanently on
OFF	permanently off

Introduction to your R17V2 Timeswitch

The R17V2 time switch has up to three daily heating programs called P1, P2, and P3. When in the AUTO mode, it will show when the time switch is next programmed to be switched ON or OFF. When the time switch is ON, you will see the red LED light up. This indicates that power is being sent from the time switch.

ON/OFF settings 4 different settings are available

How to select

- Lower the cover on the front of the unit.
- By pressing the Select button to change between settings for the time switch.

Factory program settings

	5/2D					
	P1 ON	P1 OFF	P2 ON	P2 OFF	P3 ON	P3 OFF
Mon-Fri	6:30	8:30	12:00	12:00	16:30	22:30
Sat-Sun	7:30	10:00	12:00	12:00	17:00	23:00

Adjusting the program settings

- Press the PROG Button.

- Press the + or − buttons to adjust the P1 OFF time. Press OK .
- Repeat this process to adjust the ON & OFF times for P2 & P3.
- When this is complete Press MENU and the time switch will return to normal operation.

Boost function

This function allows the user to turn ON the time switch for minutes, 1, 2, or 3 hours. This does not affect your program settings. If the zone that you wish to Boost is timed to be OFF, you have the facility to switch it ON for minutes, 1, 2, or 3 hours.

- Press the button Boost once, twice, there,e, or four times respectively.
- To cancel the boost Boost function, simply press the button again.

Operating the thermostat
The thermostat will allow the time switch to activate provided the ambient temperature is below the setpoint.

- **Adjusting the temperature setpoint**

  Rotate the dial clockwise increase or counterclockwise to decrease the temperature setpoint. You can press the dial to confirm or the temperature will be confirmed automatically after 5 seconds.
- **On/Off function**

  The On/Off button located on the thermostat will turn the thermostat to OFF when pressed. OFF will be displayed on the screen. If pressed again, the thermostat will go back to a normal operation.
