Short Description

Modular design for optional KVM switches, allows management of up to 128 computers Supported Video resolutions up to 1440×900 Dual interface for PS/2 and USB keyboard/mouse Simple Switch between computers via function keys/on-screen menus (OSD) Auto scan mode for Password protection does not prevent uninterrupted monitoring of a selected computer authorized access

Description

The LevelOne KVM-8901 is a compact and modular KVM console drawer designed to be used in a standard 19-inch server rack. It offers connectivity to 8 or 16 computers by depending on the LevelOne KVM module that is installed (KCM-0832 or 1632). It features a 19-inch retractable LCD(19:10) high video quality up to 1440 x 900 monitor and keyboard with built-in touchpad. Users can daisy chain up to eight units of KCM-0832/1632 together, providing control of up to 128 computers in total, support Auto Scan Mode for monitoring PCs and flexible and easy PC selection via KVM-OSD manual or hot Keys.
