Silica gel packets inside. Do not swallow. Discard after unwrapping the product. |

DEAR PARENTS congratulations on your purchase of the 3 in 1 bedside crib of the company BDG PRODUKCJA. Your child will most certainly sleep feeling safe and comfortable, and will enjoy it.

IMPORTANT – KEEP FOR FUTURE REFERENCE. READ CAREFULLY ELEMENTS:

1. Carrycot,
2. Support,
3. Support,
4. Fixing handle,
5. Fixing bars.
6. Bracket,
7. Mattress,
8. Bag

UNFOLDING THE COT

1. Place the supports into the fixing handle.
2. The support should be directed with the locking mechanism facing inside of the cot. Insert the support into the openings of the fixing handle until you hear the clicking sound of the locking mechanism. Repeat on each end of the handle.
3. The fixing handle is equipped with bars connectors that connect the entire structure of the cot.
4. Insert the ends of the bars into the connectors of the cot structure until you hear the clicking sound.
To disassemble the bars connecting the cot structure move the locking mechanism (1) to the inside of the cot and take the connecting bars (2) out of the fixing handle. Repeat on each end of the connecting bar.
5. after assembling the connecting bars, the frame can be placed on the ground.
6. To ensure maximum stability of the frame, it is required to assemble two brackets.
7. The brackets are equipped with two handles on each of their ends, which should be inserted into the sockets on the supports until you hear the clicking sound.

UNFOLDING THE CARRYCOT

8. The carrycot can be unfolded using two brackets. It is enough to move them to the outside until the locking

mechanism is secured in place.

9. After unfolding the carrycot, make sure the fabric is properly stretched.
10. The cot is equipped in the mattress. Place the mattress inside the carrycot.

COT USER MANUAL

11. Place the carrycot on the frame. The carrycot is equipped with elements used to fix it to the frame. After inserting it onto the frame, you will hear the clicking sound of two locking mechanisms.

12. Note: Before putting the child inside the carrycot, make sure the basis is properly fixed to the frame.

13. The cot is equipped with the rocking function that can be blocked.

To block and release this function, use the buttons located on both sides of the fixing handle. To block the rocking function of the carrycot, press the button marked with a locked padlock.

14. To release the rocking function of the carrycot, press the button marked with unlocked padlock.

DISASSEMBLY OF THE CARRYCOT

15. The carrycot can be disassembled from the frame using two handles located on the shorter sides of the cot. They are also used to carry the carrycot.

To disassemble the carrycot, lift both handles at the same time. This way, the carrycot will be disconnected from the frame.

Note: Never disassemble or carry the the carrycot with the child inside of it

FOLDING THE COT FOR TRANSPORT

The cot can be easily folded to transport it to another place.

16. Disassemble the carrycot from the frame.
17. disassemble the brackets.
18. disassemble the connecting bars.
19. take the supports out of the fixing handles.

Note: the cot can be transported in the bag without disassembled brackets.

20. Take the mattress out of the carrycot.
21. fold the carrycot moving the brackets inside the carrycot
22. Bag in which all elements of the cot can be packed is used to transport the product. The bag is a part of the set..

CLEANING AND OPERATION

Plastic parts of the baby cot can be cleaned with a soft, damp cloth. Do not use strong washing agents.

Clean metal parts with a dry cloth, removing dust and water.

The upholstery and mattress of the baby cot may only be hand washed at 30 degrees using gentle washing agents, best washing liquids.

Check periodically if all elements of the baby cot are operational and safe.
