Advice for environmental care

Don't put this article to normal waste after it reaches the end of its durability. You have to bring it to a staging area for electrical wastes. That's the meaning of this symbol wich you can find directly on article, in the assembly instruction or on the packaging. The materials are recyclable at the basic of their identification. With the recycling of these materials, you have a big hand in environmental protection. Ask your local government for next staging area.
