evil CONTROLLERS B4210 Rapid Fire Remote Controller

ABOUT PROFILES

Your Evil Controller comes with 20 customizable profiles. They operate just like classes in Call of Duty® Simply select the p Profile (class) and assign mods (perks).

By default, the first 10 profiles have a fire rate equal to that of their profile number. For exam p le, profile 5 = 5 shots per second. Learn how to modify these defaults under ADJUSTABLE RAPID FIRE.

UPON PROFILE ACTIVATION, PROFILE 1 WILL AUTOMATICALLY BE SELECTED

PROGRAMMING MODS

SELECT/CLEAR PROFILE

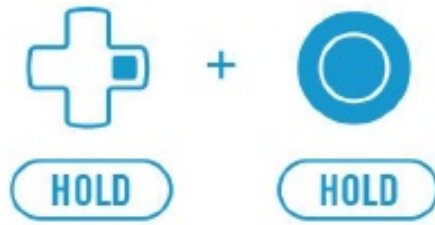

Tap □ (profile#) of times to choose the desired profile. For example, tapping D 5 times = profile 5

Hold for 2 seconds.

CLEAR ALL

Clear all functions in the current profile

Hold for 2 seconds

PROGRAMMING MODS

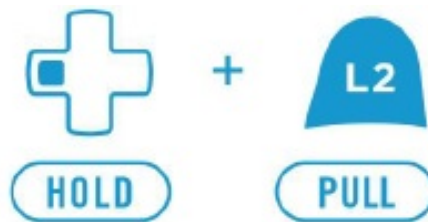

RAPID FIRE

Increase the rate of fire of semi-automatics weapons.

See Advanced Mods for adjusting the rate of fire.

LEFT TRIGGER RAPID FIRE

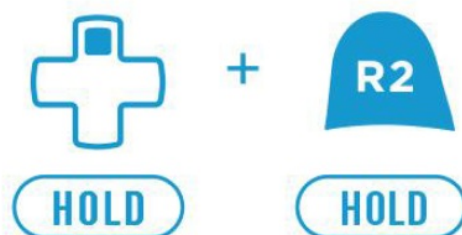

AKIMBO RAPID FIRE

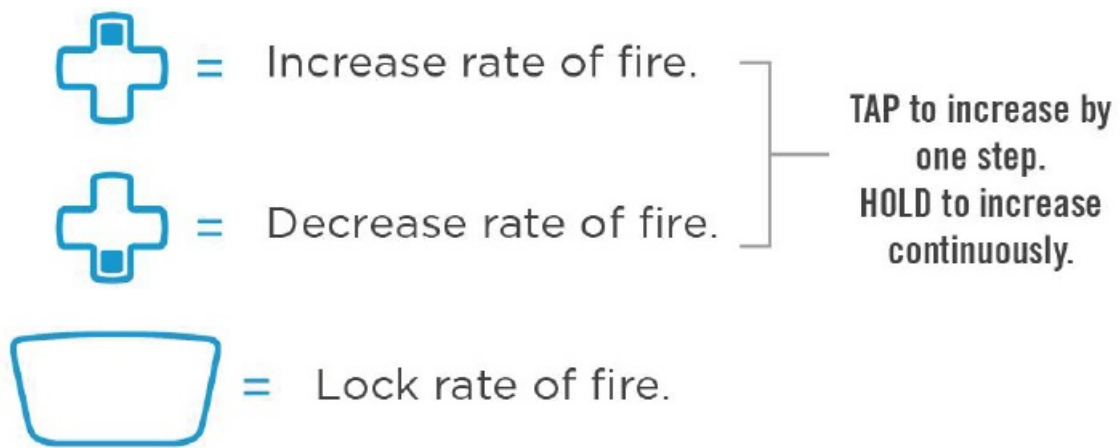

ADVANCED MODS

ADJUSTING YOUR RATE OF FIRE

Hold for 2 seconds

Each profile has its own adjustable rate of fire

It's possible for the rate of fire to be so fast that it doesn't register in-game. Slowing automatic weapons down to reduce recoil and increase accuracy can be effective. Features 15,000 speed increments.

PROFILE FEATURES

CHECK PROFILE

Check the current profile number. LED will blink # to indicate the profile

TOGGLE PROFILES ON/OFF

Quickly return the controller to stock functionality.

LOCK

Prevent mods from being turned on/off during gameplay.

Hold for 3 seconds.

When the light bar pulses, release

MASTER RESET

Restore the controller to factory settings. Do not perform this operation unless you want to overwrite all of your customized profiles.

This action cannot be undone.

Note: Mods must be toggled off in order to perform Master Reset.

Hold for 10 seconds
