GASKET MOUNTING AND MORE

Unlike many others, the Ronin TKL Wired Keyboard boasts more than 10 Layers to deliver a Keyboard experience.

- Bottom Plate Sturdy base with dual steps for stability and flexibility.
- Sound Dampening Foam Reduces keystroke noise.
- Gasket Silicon Suspends keys for a smooth and soft typing experience.
- PCBA Central circuit board for connectivity.
- HotSwap Module ProMod HotSwap Modules for Ultimate DIYers.
- Vibration Dampening Foam Minimises desk vibrations.
- **Light Diffusion Reflective Layer** Enhances RGB lighting effects.
- Switch Mounting Plate Holds switches securely in place.
- HotSwappable Switches Customise switches effortlessly.
- **Top Plate** Durable top layer for longevity.

BENEFITS OF GASKET MOUNTING

- Experience unparalleled typing comfort and precision with Ronin's Gasket Mounting Tech. The innovative design suspends keys using gasket silicon points, ensuring smooth key presses and reducing noise.
- This unique construction delivers exceptional stability, enhanced tactile feedback, and an immersive typing
 experience like no other. Say goodbye to fatigue and hello to productivity with the Ronin Gasket Mounted
 mechanical keyboards.
