<b>SEA DET-WNSCAM SEA DET-IP8</b>	EVOLVEO Detective WN8 SMART spare wireless bullet camera
<b>SEA DET-WNS</b>	NVR security system EVOLVEO Detective IP8
<b>SEA DET-POE8</b>	SMART NVR wireless security system EVOLVEO Detective WN8 SMART NVR security system EVOLVEO Detective POE8 SMART

### Features:

Material: Aluminium & SECC Dimension:  $\phi 94,5 \times 33$ mm Thread for grommet: M22x1.5

Operating temperature: -40°C ~60°C Humidity: 0~90% RH

Max. load: 1.0Kg Weight 0.22Kg Colour: White

### Assembly:

- Disassemble the installation box using the three screws on the lid.
- There are three pre-prepared holes on the underside of the box for fixing to the base material.
- Mark the holes to be drilled on the substrate material, the gasket can be used as a template.
- Insert the self-adhesive gasket between the box and the mounting surface and tighten the screws.
- Select a suitable grommet and pull the necessary supply wires into the installation box.
- Pull the camera cabling through the center hole and use the supplied gasket to prevent dirt from entering the installation
- Place the camera at the most suitable pitch on the box lid and tighten Do not use excessive force and always keep the screw perpendicular to the lid to avoid damaging the threads
- Finally, screw the lid to the box using the screws provided

### Warning:

- Always make sure that the surface on which you screw the box is perfectly flat. If mounting on an uneven surface, the body of the installation box may deform or crack when tightened.
- The box is manufactured to minimize the ingress of dust, liquids or insects, while maintaining proper installation. In case of improper use or modification of the box, the manufacturer is not liable for any damages.
- The installation box is not intended for wiring, it cannot be used as a distribution box or for any other similar

use.
