EZCast C4i Mini Box Display Receiver

Introduction

EZCast supports multiple wireless display standards, including EZCast, Miracast, DLNA and EZAir (compatible with iOS and macOS). Ongoing firmware upgrades are provided to support latest operating systems. Please read this guide to install and setup your EZCast. Happy Casting!

Software Installation

Visit <https://www.EZCast.com/app> to download platform-specific applications and User Manual. Scan the QRCode below to download EZCast mobile App.

Hardware Installation for Wireless Mode

Install EZCast Mini Box

1. Mini Box to power: Connect DC port to power (5V/2A).
2. Mini Box to TV: Connect to the HDMI port of your TV.
3. Connect to network: Connect to network wirelessly or via LAN port.

Select source

Set your TV's source/ input selection to HDMI port that connected to the EZCast dongle

Connect successfully

Your TV screen shall display the instructions once EZCast is connected successfully. Please follow the instructions to complete setup.

Mirroring for Wireless Mode (Android/ iOS)

Download EZCast app

Scan QRCode on TV screen or search "EZCast" on Google Play/App Store.

Connect to network:

Via LAN port

LAN light of Mini Box turns on when connected to router via LAN port.

Connect wirelessly

1. Launch EZCast App and follow the guide to add device. If the guide doesn't pop out, click at the upper right and click "+" at the upper left.
2. Press and scan the QRCode on your screen.
3. Make sure the SSID and picture shown are correct.
4. Connect the device to your home Wi-Fi by entering the correct password. After the connection, press "next" button.

5. Check whether the connection status at the upper right on your screen shows your home wifi or not. If connection fails, please connect again.

6. Sign up an EZCast account to save hashtags, create playlists, voice control, and autoplay.

Screen Mirroring for Android

EZCast/ Mirror (Android 5.0 above)

Click the Mirror icon on the top bar.

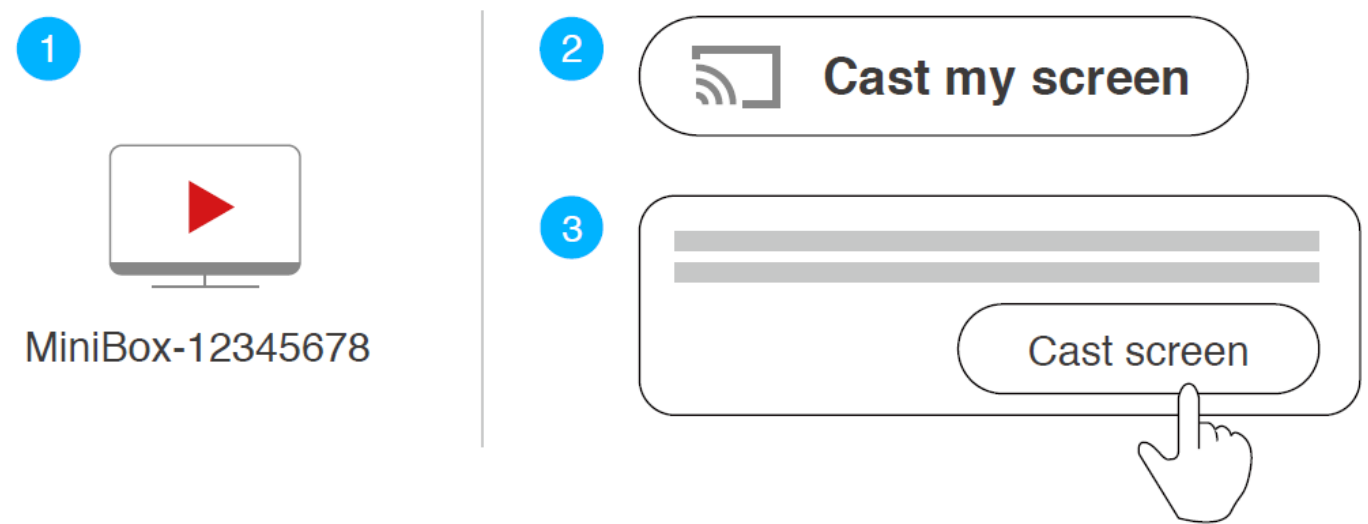

Note: For EZCast/ Mirror, it only captures the screen without sound due to limitations in Android. To mirror the sound to your TV, please use EZMirror instead.

Google Home

You may download Google Home App from Google Play. Launch the Google Home App, login with Google account. Then you may mirror to EZCast using Google Home.

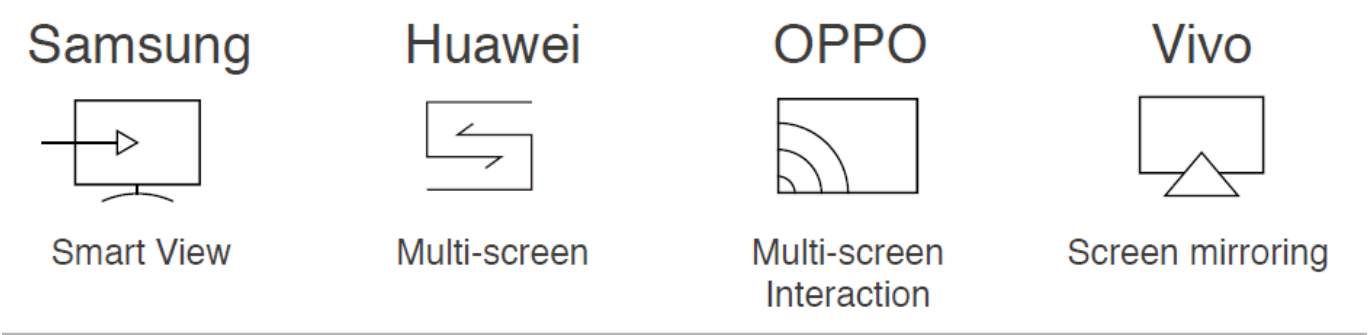

Steps: Choose device name: MiniBox-xxxxxxx > Cast my screen > Cast screen

Note: Make sure that Mini Box and your device are both connected to same Wi-Fi. Use 5GHz WiFi, instead of 2.4GHz, which provides higher speed connection and better performance for Google Home mirroring.

Miracast

Mirror to EZCast using Miracast if your Android devices support Smart View on Samsung, Multi-screen on Huawei, Multi-screen Interaction on OPPO, or etc.

Screen Mirroring for iOS

EZAir

Screen mirroring may be done by EZAir on iOS smart devices. Swipe and click Screen Mirroring, and then find and select MiniBox-xxxxxxx.

Note: Make sure that EZCast and your iOS device are both connected to same network.

EZCast Mini Box Settings

- **Internet:**

Connect EZCast to WiFi.

- **Resolution:**

Change output resolution.

- **Portrait Mode:**

Rotate the casting screen to 0, 90, 180, and 270 degrees.

- **Language:**

Change language preference.

- **Password:**

Change password of EZCast.

- **Device Name:**

Change device name of EZCast.

- **EZChannel (Auto play):**

Automatically start video streaming created at your EZChannel playlist once your EZCast dongle is connected to WiFi.

- **EZAir Mode (only for iOS):**

Switch mirroring mode of EZCast between “mirror only” and “mirror + streaming” for iOS devices.

- **Wallpaper:**

Automatically play the pictures related to keyword set or from USB disk during standby mode. Note: The USB mode only supports jpeg files with maximum resolution of 3840×2160 saved in root folder.

- **Upgrade:**

Upgrade your EZCast firmware to latest version for better user experience. Please do NOT turn off the Wifi and the power of EZCast during firmware.

- **Reset to default:**

Reset EZCast to default settings.

Features of EZCast

EZChannel:

Create an EZCast account and bind with your Mini Box to get advance functions.

1. Discover and personalize your video channels.
2. Search videos across different media sites.
3. Auto-play: Automatically start video streaming which are created at your EZChannel playlist once your EZCast dongle is connected to WiFi.

Video/ Photo/ Music:

Stream and playback local media files from devices to EZCast dongle wirelessly.

Live Camera:

Capture videos from local camera to EZCast dongle.

DLNA:

Stream multimedia files via DLNA protocol.

Cloud Storage:

Access data from Cloud server (Dropbox, Google drive, or etc.).

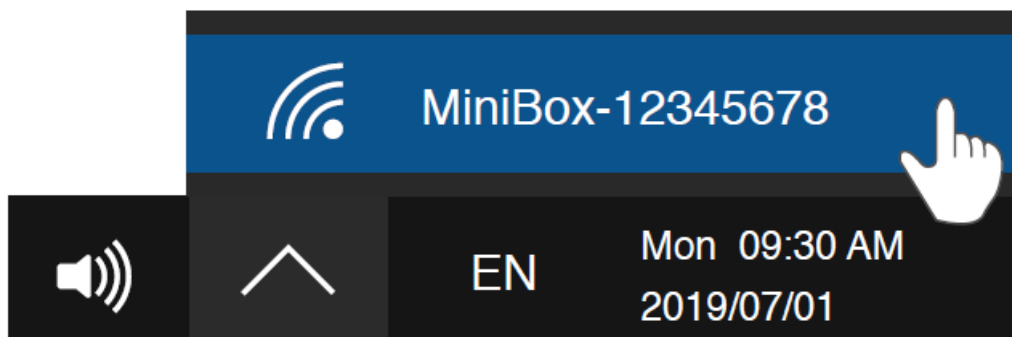

Voice Control:

Pair EZCast Mini Box with any Google Home/ Assistant/ Amazon Echo Dot, and stream cloud videos just by asking. e.g. "Hey Google, ask EZCast to play holiday video."

User manual please refers to website as below. <https://www.ezcast.com/support>

Mirroring for Wireless Mode (Windows/ MacOS)

1. Download and install EZCast application Download at <https://www.ezcast.com/app>.
2. Connect to Wi-Fi
 1. Click Wi-Fi list from your laptop and connect to your MiniBox-xxxxxxx by entering password on TV screen.

2. Launch EZCast application and find your EZCast device.

Click Settings icon on the left side of SSID, select Internet, and connect to your Wi-Fi.

3. Screen Mirroring/ Extend

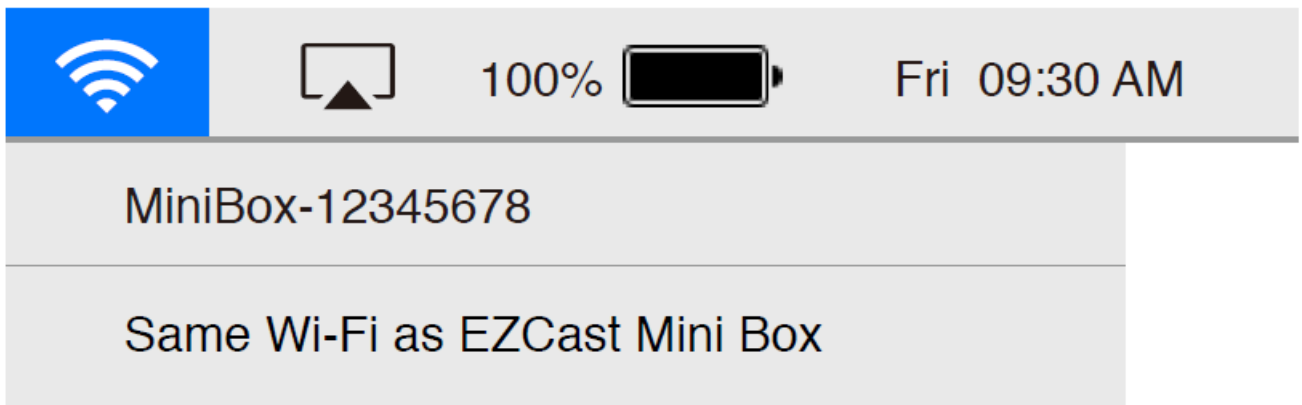

Click Mirroring/ Extend in EZCast application.

Mirror/ Extend Screen for Mac

1. Connect to EZCast dongle

Connect to EZCast dongle from Wi-Fi setting on the top bar: directly connect to MiniBox-xxxxxxx or connect to the same Wi-Fi as EZCast Mini Box.

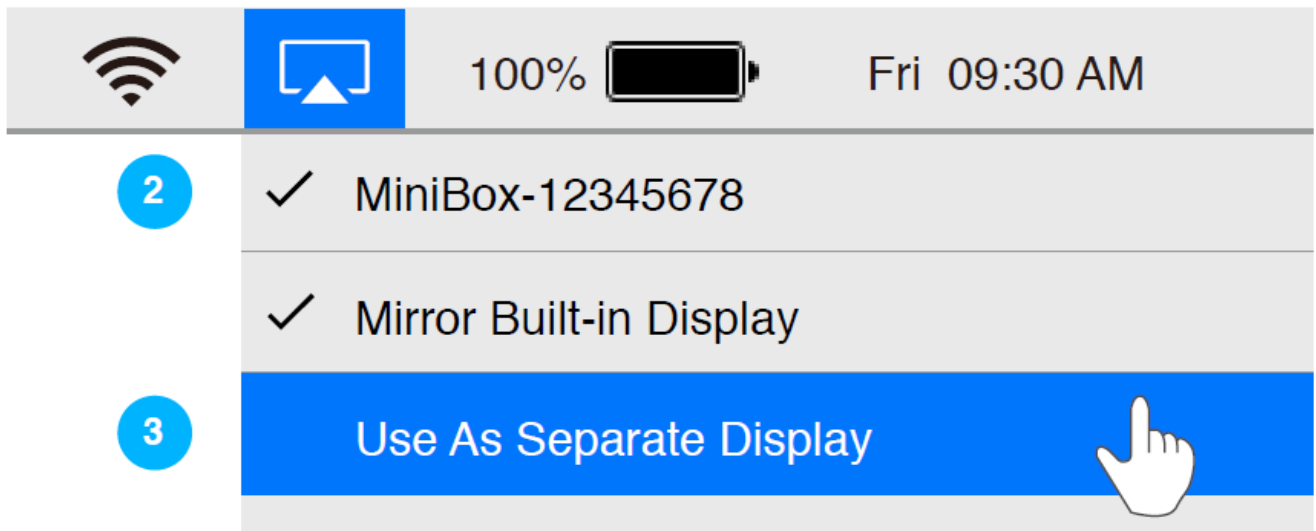

2. Screen Mirroring

Click icon on the top bar and select MiniBox-xxxxxxx to mirror.

3. Mirror/ Extend

Once your Mac is screen mirroring, you could select “Mirror Built-in Display” to mirror, or “Use As Separate Display” to extend your screen.

Hardware Installation for Wire Mode

Install EZCast Mini Box

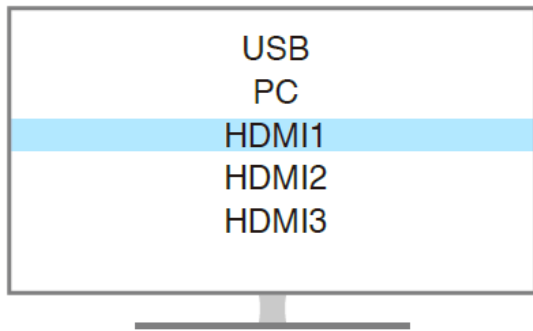

1. Mini Box to power: Connect DC port to power (5V/2A).
2. Mini Box to TV: Connect to the HDMI port of your TV.
3. Connect to smart device: Connect to smart device via USB data cable.

Select source

Set your TV's source/ input selection to HDMI port that connected to the EZCast dongle

Connect successfully

3

4

Your TV screen shall display the instructions once EZCast is connected successfully. Please follow the instructions to complete setup.

Mirroring for Wire Mode (Android/ iOS)

Mirroring for Android

1. Download MiraPlug app

Plugging in the USB data cable at the first time, a notification leading to download MiraPlug app will pop out. It is also available by searching "MiraPlug" on Google Play Store.

2. Casting to Mini Box

Launch the MiraPlug app and click "start now" to cast. Please allow bluetooth connection for MiraPlug to enable audio transmission.

3. Audio streaming settings

Click the sound icon in the middle to change the audio output device. Turn on and select MiniBox-xxxxxxx to stream audio from the screen, or select other bluetooth device such as bluetooth speakers or bluetooth earphones. Turn off the bluetooth connection to enjoy video casting on big screen with audio output on phone.

1

MiraPlug

2

3

Mirroring for iOS

Plug in the USB data cable and click “trust” to cast video to Mini Box.
