Subwoofer & soundbar pairing operation

Status 1

Once you will switch ON the unit first time, you will find that Soundbar and subwoofer will get paired automatically as follows

1. Turn On the Soundbar and subwoofer. Bluetooth indicator at the subwoofer will keep flashing.
2. Whether the Soundbar is in any of the Bluetooth /Optical/ USB/AUX/HDMI(ARC)/Coaxial mode, wait about 1 minute, the Soundbar and the subwoofer can be paired automatically
3. After the successful pairing of Soundbar and subwoofer, the Bluetooth indicator at subwoofer will keep lighting blue.

Status 2:

Connect soundbar and subwoofer manually as follows

1. Turn on the Soundbar and subwoofer.
2. Short press the “pair” button provided at the back side of subwoofer once. The Bluetooth indicator at subwoofer will start flashing. Wait for a minute, the soundbar and the subwoofer will enter into pairing mode and will get connected.
3. After successful pairing, the Bluetooth indicator at Subwoofer will keep lighting blue.

Status 3:

Reconnect soundbar and subwoofer

1. Turn on the Soundbar and subwoofer.
2. Press the “pair” button provided at the back side of the subwoofer once. Press it again after an interval of 2 seconds and wait for a minute , the soundbar and the subwoofer will enter into pairing mode and will get connected.
3. After successful pairing, the Bluetooth indicator at Subwoofer will keep lighting blue.

Operation guidance**Playback via Bluetooth**

Note: When the first time to turn on the speaker, Soundbar must connect with the subwoofer successfully (the indicator light of the subwoofer is steady light), and then use other medium to connect to Bluetooth.

Basic Requirement

1. Bluetooth must be activated on the mobile end device which you want to connect with “Fenda HT-388D”
2. The mobile end device must support Bluetooth A2DP
3. The mobile end device must be within range of the Fenda HT-388D(max.15m)

Steps need to be followed

1. Press Source key to select Bluetooth mode
2. will appears on the display
3. You now have 30 seconds to register your mobile end device
4. Start the search on your mobile end device
5. If the mobile device requires an access code, please enter 0000
6. Once confirmed, the connection will be done automatically and will appear in the display

Please note:

1. the device most recently connected to the F&D System connects automatically when Bluetooth is activated and the input for Bluetooth playback has been selected. in this case the message will appear.
2. Start the playback of a medium on your mobile end device and the sound will automatically be generated by the F&D System.

USB mode

1. Plug in USB driver
2. Card reader supporting max 32GB as well as MP3/WMA dual formats decoding
3. Play music (refer to remote control function)

AUX mode

1. Short press to switch audio source to AUX mode. Connect the speaker with audio source through signal cable (output interface of devices as TV, PC, Mobile phones, etc).
2. Adjust volume while playing music.

Short press Source to select Optical mode.

1. Connect TV with optical port on the rear of the speaker through optical cable.
2. Please make sure to set "PCM mode" as digital output on your devices, such as Blue-ray DVD, TV and Video player, etc. Below as example.
3. Adjust volume while playing music.

Tips:

Please make sure that TV supports an optical function.

Specifications

Output power (RMS): 120W(80W+20W*2)

Speaker Unit:

Subwoofer: 8" * 1 pcs

Soundbar: (52*92mm) * 2 pcs

Tweeter: 1" * 2 pcs

Frequency response: 20Hz-20KHz

S/N Ratio: ≥70dB

Separation: $\geq 45\text{dB}$
 Bluetooth version: V5.3
 Power: 100-240V~50/60Hz 0.5A
 Soundbar: W996xD118xH68mm
 Subwoofer: W185xD380xH372mm

Troubleshooting

Problem	Possible Cause	Solution
F&D system does not turn on	Power cable not connected to the power outlet and/or F&D System	Check connection
Sound reproduction too soft	Volume of F&D System set too low	increase the volume using the "Volume" button. increase the volume of the source device
F&D System does not respond to remote control.	The battery is empty	Replace battery, observe correct polarity at insertion
No sound reproduction	Source device not producing any signal.	Digital output on the source device not activated (please refer to device instructions).
	Cable not correctly connected/faulty cable.	Check the connection of the source device to the F&D System and change the cable if necessary.
	distance is far from device in Bluetooth mode	put your Bluetooth device close to the speaker
	Bluetooth device not connected successfully	please restart the speaker and try again
No sound output under optical mode	optical cable not connect well or damaged	not bend optical cable over 50 degree
The subwoofer cannot be connected	After pressing the pairing button on the back of the subwoofer, the subwoofer cannot automatically connect to the Soundbar	Power off the subwoofer and power it on again ; Turn off the Sound Blaster and turn it on; (choose one of the two)

1. Do not install this equipment in a confined or building-in space such as a book case or similar unit, and remain a well ventilation conditions. The ventilation should not be impeded by covering the ventilation openings with items such as newspaper, table-cloths, curtains etc.
2. **WARNING To** reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture. The apparatus shall not be exposed to dripping or splashing and that objects filled with liquids, such as vases, shall not be placed on apparatus.
3. **WARNING:** The mains plug is used as disconnect device, the disconnect device shall remain readily operable.

4. **Correct Disposal of this product.** This marking indicates that this product should not be disposed with other household wastes throughout the EU. To prevent possible harm to the environment or human health from

uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources. To return your used device, please use the return and collection systems or contact the retailer where the product was purchased. They can take this product for environmental safe recycling.

- 5. Frequency: 2.402GHz-2.48GHz
- 6. The Max. transmit power: 3.17dBm

Warning

Federal Communications Commission (FCC) Statement
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- 1. This device may not cause harmful interference, and
- 2. this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications made to this device not expressly approved by SHENZHEN FENDA TECHNOLOGY CO., LTD. may void the FCC authorization to operate this device. **Note:** The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

RF exposure statement:

The transmitter must not be colocated or operated in conjunction with any other antenna or transmitter. This equipment complies with the FCC RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a Minimum distance of 20cm between the radiator and any part of your body.
