FALCON RIDGE Full Size Polaris Ranger Soft Windshield

Instructions for Installation and Care

Windshield/Top Combo

Notice: Do not smoke inside the cab or expose the enclosure to direct flames. Cab is Flammable. Be sure to read these instructions thoroughly before opening and installing the enclosure. The installation is best done when the temperature is 70 degrees F. or warmer. The temperature affects the adhesive Velcro, if conditions prevent installing in warmer weather it helps to store the adhesive Velcro at room temperature prior to installation.

1. Carefully open the carton and remove the rolled up Cab Enclosure on a large flat surface that is clean and free of dirt or other material that may soil or scratch the windows of the Cab.
2. It will help to unhook the hood prior to installing the cab enclosure
3. Check over the parts included in the carton with the parts list shown below:

Velcro Hook strips: 2 each 4" long

" " 4 each 10" long

" " 2 each 6" long

Cab Enclosure 1 each

If any parts are damaged or missing please contact customer service at (606) 845-7439.

4. Loosely drape the Cab Enclosure over the Ranger roll cage. Next take the three straps on the nose and attach them to the front of the Ranger. The middle strap is longer and will go down and wrap around the bar that is in the hole along the bottom portion of the bumper. The two side straps wrap around the top bumper bar on each side. If you have a winch, it may interfere with the center strap, in this case you may not use it, the side straps are enough to hold the nose. The photo below will help show you where to place the straps.

5. Now pull the straps tight so that the edge of the nose lines up with the top of the front panel that has Polaris embossed in it. This is to ensure that the cab is in its proper location from front to back. Once this is done you will now loosen these straps and leave it be until the final step.
6. Working your way to the rear of the roll cage, pull the rear corners down to determine the correct positions to place the 6" adhesive Velcro strips around the roll bars. The photos below show the correct way to attach the double-sided Velcro.
7. Note the position and install two 10" and one 4" hook and loop strips on the left side of the roll cage for the front window. Be certain to clean the surfaces before applying the adhesive hook strips! Attach these Velcro strips and pull the windshield tight to the sides and affix the Velcro tabs to the adhesive strips. Now retighten the straps on the front of the nose and you are finished, Enjoy!

Cleaning and Storage Recommendations:

1. Before removing the Cab for storage, make sure it is very clean in order to prevent scratching of the window panels. Clean with a soft rag or sponge using a mild liquid detergent soap and warm water solution. Never rub the windows with a dry cloth or rag! Let the Cab dry thoroughly before attempting to roll for storage.
2. It is important that the Cab be rolled up for storage rather than folding. Folding will cause damage to the windows!!! Carefully roll up the Cab similar to the way it was when it was packed at the factory. On a large, clean and flat surface, fold the doors over the rear panel first, then, interleave the top and windshield on top of the doors. Begin rolling the Cab into a roll approximately 8 inches in diameter. Put the rolled Cab back into the carton for storage at a normal room temperature. It is best not to expose the Cab to either extreme hot or cold temperatures when storing.
3. A special cleaner conditioner is available from Falcon Ridge that will greatly increase the service life of the Cab Enclosure. In addition, if additional hook and loop sets are needed, they can also be ordered.

Thank you for your purchase!

Return Policy

- If for any reason you choose to return this product it must be returned within 30 days from date item is received. You **MUST** package the product exactly as it was originally packaged from the factory to get a full refund for the product!
- The vinyl windows should never be folded when packaging in the box or for storage purposes. Lay all the windows on top of each other with the canvas folded in between and the paper (if available) on both sides of

the windows.

- All returned products will be inspected upon arrival at the production facility and must be in unused, factory new condition to receive refund – a 25% restocking fee will apply.
- If ordered from Falcon Ridge please call at 606-845-7439 to gain a return authorization number, use our preferred shipping carrier (UPS) to return the item (unless the item is defective, you are responsible for paying the shipping to return the item.) Any returns submitted to Falcon Ridge without a return authorization number will be charged a 20% restocking fee. If ordered from one of Falcon Ridge’s many distributors’, you must first call them and see what their return policy is. Once your item reaches our production facility, our customer satisfaction team will inspect your item to ensure unused, factory new condition. NOTE: All windshields must be returned with the original protective film intact and not removed. Do NOT
- REMOVE if you have any intentions of returning the item. Refund/ replacement of a windshield will only be processed on items with original protective film or if the windshield is defective.
- Items must be properly packaged in the original shipping carton to protect them during transit and ensure your returned item arrives back factory fresh, and in new resalable condition (any returned items that have been used, altered or damaged in any way will not be subject for a refund.) All contents including instruction manuals, accessories, hardware, Velcro, etc. must be included in your return shipment. Only items in OEM factory new condition will be approved. Once returned items are received, credit will be issued to the original credit card/ payment method used for the purchase. Outbound shipping and return shipping cost will not be refunded. Please allow 4 to 6 weeks for your refund to be processed.
