How to use the karaoke machine?

1. Power ON/OFF: Toggle the ON/OFF button.
2. Bluetooth Connection: Turn on the karaoke machine, and the blue Bluetooth indicator light will start flashing. You'll hear a voice prompt saying, 'The Bluetooth device is ready to pair.' Open your Bluetooth device, find 'A26-C' in the list, and click to pair. When you hear a music, it means Bluetooth is connected, and the blue indicator light stops flashing.
3. Mode switch: short press the "MODE" to switch the playback mode (mainly refers switch to the TF card /U disk to play music).
4. Previous/Next Song: Long press ⏮ ⏭ and hold for 2-3s to switch to next/previous song.
5. Play music through TF card/U disk: Prepare a micro SD card/U disk full of MP3 songs, insert the card into the TF card/U disk slot of the karaoke machine, short press the "MODE" button, it will play automatically.

How to use the microphone?

1. Power on/off

Long press the power button to switch the microphone ON/OFF.

When the microphone and karaoke machine are on at the same time, they will be connected together automatically.

2. How to adjust the volume of the microphone?

Short press the "+" "=" button to turn up/down the volume of the microphone.

3. Magic sound effects

Short press "EFF" button to switch between 6 magic sounds.

Long press "EFF" button for 2-3S to delete/restore magic sounds.

4. How to remove the original vocals from a song?

Short press the power button on the microphone briefly to eliminate the original vocals from the song.

Regarding charging:

1. The product will automatically power off when the battery is too low.
2. Use a DC 5V charger and the included USB cable to charge. While charging, the charging indicator light on the karaoke machine/microphone turns red; it turns off when fully charged.
3. Karaoke machine: full charge takes about 3 hours. Microphone: about 1 hour. Both provide 3-5 hours of use.
4. Use the correct cable and voltage to prevent damage.
5. If unused for a while, charge every 3 months to prevent battery damage.

FAQS

1.Howling

- Check if the microphone too close to the speaker's area. • To avoid howling, please do not keep microphone head too close to the speaker. If too close, it will make sharp and strange sounds, which is relatively common sound feedback, so try to avoid microphones close to karaoke machines.

3.The Microphone is no sound

- Try to charge the mic then use it. • Try to long press power button of the microphone to turn on,

4.The karaoke machine no sound when playing music

- Check whether the Bluetooth is connected successfully. • Check if the phone volume is turned up.

5.Presence of noise

- Environmental noise or mobile phone signal interference, adjust the distance between karaoke machine and the cellphone, and adjust the distance between mic and machine.

6.Long press the power button and the karaoke machine/mic indicator does not light up

- Try to charge the device/mic and use it.

auton:

This device complies with industry Canada's licence-exempt RSSs. Operation is subject to the following two conditions:

1. This device may not cause interference; and
2. This device must accept any interference, including interference that may cause undesired operation of the device.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
