FAQ

Q. How does the cleaning performance of the Roomba® 960 Robot Vacuum compare to other iRobot models?

A. An advanced motor gives the Roomba® 960 robot vacuum up to 5x the airpower.

Q. How does the cleaning performance of the Roomba® 960 Robot Vacuum compare to other iRobot models?

A. An advanced motor gives the 960 up to 10x the air power* in Performance Mode or when the robot detects it is cleaning on carpet. The cleaning system of the 960 is designed with Power Boost is a feature that automatically increases vacuum power on carpets where it's needed most. *(Compared to Roomba® 600 Series.)

Q. How smart is Roomba® 960?

A. Powered by iRobot Genius™, the 960 learns from your cleaning habits to offer up personalized schedules, while Google Assistant and Alexa allow you to start cleaning with just the sound of your voice. The 960 will even suggest an extra clean when your area's pollen count is high or during pet shedding season.

Q. Why is the Roomba® 960 Robot Vacuum good at picking up pet hair?

A. The 960 helps win the battle against pet hair. Multi-surface rubber brushes work together to grab pet hair from your floors without getting tangled.

Q. Can Roomba® 960 robot vacuums adjust to different floor surfaces?

A. Yes, the cleaning head of the 960 automatically adjusts to adapt its height and keep the Multisurface rubber brushes in close contact with different floor surfaces.

Q. Does it work with Google and Alexa devices?

A. Yes, with voice assistant capability through Google and Alexa devices, the Roomba® 960 can clean your home at the sound of your voice
