FAQ

Product Features

1. **What does the LED mean on the Huion Mini Keydial KD100?**

   The status and color of the LED on the Huion Mini Keydial KD100 indicate the working status of the product.

Status of LED	Meaning
Blue light	wireless mode with sufficient power
Flash red light	low battery (about 20%)
Red light	charging (the red light is on as long as a USB cable is connected.)
Green light	charged
Flash blue light	standby mode
Light off	Power Off

2. **Do I need to charge the Huion Mini Keydial KD100 when I first open the box?**

   We recommend that you charge the Mini Keydial KD100 when you first receive it if you plan to connect it to your device using a wireless connection. To charge, simply connect the Mini Keydial to a working computer using the USB cable inside your box.

3. **How long does it take to fully charge the Huion Mini Keydial KD100?**

   The Huion Mini Keydial KD100 can be charged under the power of 5V, 0.5A or 5V, 1A. Minimum time used for a fully charged battery can be as short as 2 hours, and 100 hours' battery life is sufficient for more than one week of using.

4. **How long is the battery life of Huion Mini Keydial KD100 after fully charged?**

   The battery life is about 100 hours. And the standby time is over 1 year.

5. **Can the battery be replaced on the Mini Keydial KD100?**

   No, the battery cannot be replaced.

Setup & Use

1. **How to customize the functions of Dial Controller in the Redial mode(Windows 10 or later)?**

   Select the **Start** button, then select **Settings > Devices > Wheel**.

   ♦ **Choose your default tools:**

   Select the Add button "+" to add a new tool. There's lots of options, from increasing and lowering volume and brightness to zooming and scrolling to switching apps. But you are allowed to add 5 functions at most.

   ♦ **Custom Tools:**

   Choose which keyboard shortcut you want to use when you rotate left, right, or click dial controller.

   ♦ **App Tools:**

   Set different functions for different programs or add multiple new tools to the dial controller.

2. **Why can't I set shortcuts for my application in Mini Keydial KD100 driver?**

   Before you set the shortcuts, please open the "Administrator Privileges" in driver at first. If you still can't assign the shortcuts for KD100, please feel free to contact us for further help.

3. **How do I connect the Huion Mini Keydial KD100 to my computer?**

   There are two methods to connect your Huion Mini Keydial KD100 to your computer. Simply plug in the USB cable into the Mini Keydial and your computer or connect wirelessly via the included wireless receiver.

4. **Which functions can I set on the Huion Mini Keydial KD100?**

   The Huion Mini Keydial KD100 is the first generation of professional mini keyboard, which can greatly improve your work efficiency of painting and creation, and full of fun. You can freely define the function of the buttons and dial controller according to your own habits. Please refer to the user manual to learn how to set up different functions.

5. **Can I use the Huion Mini Keydial KD100 without driver?**

   Yes, the Mini Keydial supports non-driver mode. You can use the default functions of the dial controller and press keys.
