## Troubleshooting

Problem points	Causes and Solutions
Bluetooth pairing failed	Reboot pairing There are too many Bluetooth devices around, which makes it difficult to search. Turn off other Bluetooth devices and search again
Low or distorted sound	Low battery Adjust the volume to a suitable level
Interruption of Bluetooth music	Whether it exceeds the effective connection distance of the speaker (10 meters effective distance) There are obstacles to the sound of speakers and mobile phones

Note: If the above method fails to eliminate the fault, please contact the dealer, do not disassemble and repair the machine by yourself, otherwise the warranty will not be provided

## Charging instructions

- \* Please use standard or equivalent power adapter.
- \* When the power of the product is low or insufficient, the speaker will emit a low-battery tone and then turn off automatically. At this time, charge the speaker as soon as possible. Charging until the indicator light is off, means the battery is fully charged.
- \* When not in use for a long time, it is recommended to charge the machine once a month.
