PACKING LIST

1. Keyboard x 1	4. User Manual x1
2. USB Receiver x 1	5. Instruction Card x 1
3. Charging Cable x 1	6. FAQ Card x 1

INSTRUCTIONS

Initial Use:

1. Please charge the keyboard when you use it for the first time.
2. Turn on the switch on the upper right corner of keyboard, and it is in the factory default 2.4G mode.
3. Take out USB receiver and plug it into the computer. When the driver is installed successfully, the product will start to serve.

Mode Switch:

BT1 Mode

1. Short press BT1 mode switch button and its indicator will flash slowly showing that the keyboard is in BT1 mode.
2. Long press BT1 mode switch button for 5s and its indicator will flash quickly showing that the keyboard enters pairing state. Turn on the Bluetooth of your laptop, if your computer system is Win 7 or earlier, please select to connect "BT3.0 Keyboard". If your device system is Win 8 or later, iOS or macOS, please select to connect "BTS.0 KB".

BT2 Mode

Refer to BT1 connection instructions.

DIAGRAM

1. Multi-mode Switch. The product supports 2.4G, BT1 and BT2 connection. It can be connected with and control 3 devices. User can switch modes via the corresponding mode switch button to control the corresponding device.
2. Integrated Holder. The top integrated holder can hold phone, tablet or other mobile devices easily. It can maintain an appropriate angle to make you easy to read when typing.
3. Rechargeable Design. Built-in large capacity Lithium battery, it can be recharged via the attached charging cable. When the keyboard is in low battery level  it's red power indicator light will flash. It's red charging indicator light  stays on when charging and turns off when finished charging.
4. If your device system is iOS or macOS, it's suggested to connect "BT5.0 KB" via Bluetooth. And the keyboard function will automatically adapt to iOS or macOS system.
