* This product does NOT include smartphone.

Quick Experience

Step 1: Unfold and fold

Step 2: Smartphone Installation

It is recommended to remove the smartphone case before installation.

Keep the logo of the smartphone holder upward. Keep the smartphone holder in center.
If the smartphone tilted, please move the smartphone left or right to make it horizontal.

Step 3: Power ON/OFF/Standby

It is recommended to install your smartphone and balance gimbal before power on the gimbal.

Power ON/OFF: Long press the power button and release it when you hear the tone.

Enter standby mode: Double tap the power button to enter standby mode. Tap again to wake up.

Charging

Please fully charge the battery before power on the gimbal for the first time.

Connect the USB-C cable to charge.

Landscape & Portrait Mode Switching

Double click the M button or manually rotate the smartphone holder to switch between landscape and portrait mode.

Do not make anti-clockwise rotation in landscape mode, Do not make clockwise rotation in portrait mode.

Tripod

The tripod is attached to the bottom of the gimbal in a rotating manner. According to the needs of shooting, choose whether to install it.

Extend and Reset the Handle

Hold the handle with one hand, hold the bottom of pan axis with other hand.

Extending: Pull the extendable rod out to suitable length.

Reset: Push upper grip to make the extendable bar down to handle part.

Connection

Bluetooth Connection

Turn on the gimbal.

Method one: Download and install Feiyu ON App, run the App, follow the prompts to turn on and connect with the Bluetooth.

Method two: Turn on the smartphone Bluetooth, connect the gimbal Bluetooth in the setting of phone, e.g. FY_VB4_XX.

If fail to find the Bluetooth:

Method one: Shut down the App in the background.

Method two: Move downward the joystick and triple tap the power button at the same time to reset the Bluetooth connection of gimbal. (And the Bluetooth can only be reconnected after reboot the gimbal)

App Connection

Download the Feiyu ON App

Scan the QR code to download the app, or search for “Feiyu ON” in the App Store or Google Play.

* Requires iOS 12.0 or above, Android 8.0 or above.

- iOS

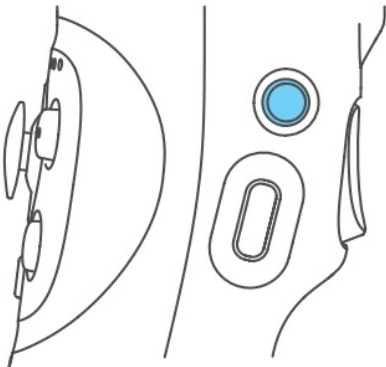

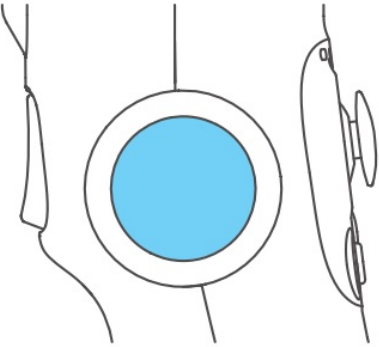

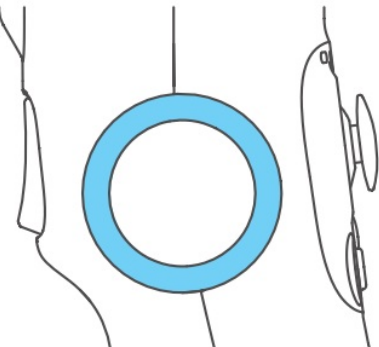

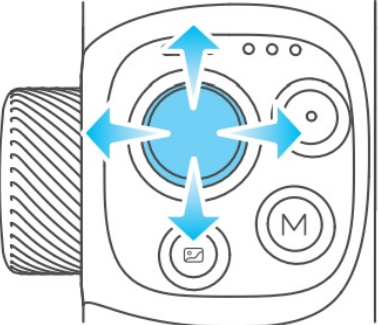

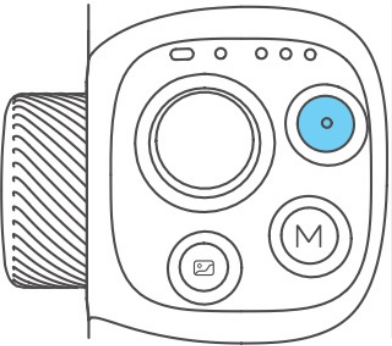

- Android

Specifications

Product name: Feiyu VB 4 3-Axis Handheld Gimbal for Smartphone

Product model: FeiyuVB4

Max. Tilt Range: -20° ~ +35° (±3°)

Max. Roll Range: -60° ~ +60° (±3°)

Max. Pan Range: -80° ~ +185° (±3°)

Size: About 98.5×159.5×52.8mm (folded)

Net gimbal Weight: About 335g (not including tripod)

Battery: 950mAh

Charging time: ≤ 2.5h

Battery Life: ≤ 6.5h (test in lab environment with 205g load)

Payload Capability: ≤ 260g (after balanced)

Adapter smartphones: iPhone & Android phones (the width of the phone ≤ 88mm)

Packing list:

- Main body×1,
- Tripod×1,
- USB-C cable×1,
- Portable bag×1,
- Manual×1

Notice:

1. Make sure motor spinning is not blocked by external force when the product is power on.
2. The product DO NOT contact water or other liquid if the product is not mark waterproof or splash-proof.
Waterproof and splash-proof product DO NOT contact sea water or other corrosive liquid.
3. DO NOT disassembly the product except marked detachable. It need send to FeiyuTech after-sales or authorized service center to fix it if you accidently disassembly and cause abnormal work. The relevant costs are borne by user.

3. Please storage the product in dry environment.
4. DO NOT overcharge or overuse the battery, otherwise it will cause damage to the battery core.
5. Never use the product when the temperature is too high or too low.

FCC Regulatory Conformance

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE:

The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

RF Exposure:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
