BL037 Security Light with PIR Sensor

In the interest of safe and proper use of this product, please read these instructions carefully and retain them for future reference.

- Remove the product from the packaging, taking care not to damage the wires, lights or decorations.
- To operate, insert batteries into the battery box; this can be AA/AAA batteries, depending on your product (batteries not included).
- Use the switch to turn the product to ON/OFF/AUTO.
- Operation: Remove the light from the holder and then twist anti-clockwise to open, when using the auto

function the light will turn on when movement is detected in darkness; after 30 seconds, it turns off automatically if there is no longer any movement. You can mount the sensor light onto any surface making sure that the light is facing downwards using the self-adhesive pad or screws provided. You can use the product as a fixed or portable light if necessary.

- This product **MUST NOT BE MODIFIED**. If any modifications are made, i.e. cutting/extending lead wires, this will invalidate the warranty and may render the product unsafe.
- This product is designed for decorative purpose only. Keep out of reach from children and animals.
- This product is suitable for indoor and outdoor use although cannot be used, or submerged in liquid. If the product becomes damaged, the set must be disposed of accordingly.
- The LEDS in this light cannot be replaced.
- Do not position this product near any source of direct heat.
- Do not connect the light set to the mains supply.
- **Note:** the life span of this product is subject to the way in which it is handled, during use and storage.
