- 4 Maintenance and Cleaning**
- 5 Disposal**
- 6 Safety Precautions and Emergency Procedures**
- 7 Warranty and Customer Support**
- 8 Documents / Resources**
  - 8.1 References**

## **General Instructions**

It is important to be aware that the product may contain small parts that are not safe for children. To prevent choking hazards, always keep the device and its components out of reach of children. During use, make sure the device has proper ventilation to prevent overheating by not blocking any vents or air inlets, and avoid placing the device on soft surfaces that may obstruct airflow. Keep in mind that this product is not designed or intended to be used as medical equipment, and should not be used to diagnose, treat, or monitor any medical conditions. Do not attempt to repair or dismantle the device, as unauthorized modifications or repairs may void the warranty and pose safety risks. Contact TUO Accessories customer support for assistance if needed. Unless specifically mentioned, this product is not designed for outdoor use, so protect it from moisture and direct sunlight to prevent damage.

## **Powering the Device**

Before handling the device, make sure your hands are clean and dry. Plug the power cord into a grounded outlet with the appropriate voltage for your region. It is important to ensure that the power cord is not tangled or damaged. Replace the cord immediately if there are any visible signs of wear or damage. To minimize the risk of electrical issues, avoid using extension cords or power strips when powering the device.

## **Battery-Powered Operation**

When operating your TUO Accessories device on battery power, use only the recommended battery types. Be sure to insert the batteries with the correct polarity (+/-) as indicated on the device. If the device will not be in use for an extended period, remove the batteries. Do not mix old and new batteries or batteries of different types, as this can lead to poor performance and potential safety hazards.

## **Maintenance and Cleaning**

To clean your device, first unplug it and remove the batteries. Gently wipe the exterior with a soft, slightly damp cloth. Avoid using abrasive cleaners or materials that could damage the device's surface. Never submerge the device in water or other liquids. Allow the device to dry completely before reconnecting to power or inserting batteries. Regularly inspect the device for signs of damage or wear and contact TUO Accessories customer support for assistance if needed.

## **Disposal**

When it is time to dispose of your TUO Accessories device, follow local regulations and recycling programs. Remove the batteries from the device before disposal and do not dispose of the device in household trash or by burning.

## Safety Precautions and Emergency Procedures

Keep the device out of reach of children and pets, and avoid using it near water or in damp conditions. Do not expose the device to extreme temperatures or direct sunlight. In case of a battery leakage, immediately remove the batteries while wearing protective gloves. If battery contents come into contact with your skin, wash the affected area thoroughly with soap and water. If irritation persists, seek medical attention. Do not attempt to repair or modify the device yourself; instead, contact TUO Accessories customer support for assistance.

## Warranty and Customer Support

For information regarding the warranty of your TUO Accessories device, please refer to the warranty card included in the product packaging. If you have any questions or concerns about your device, contact TUO Accessories
