## System Requirements

Windows® 7 / 8.1 & 10 and Mac OS: 10.3 or later

## Using The Device

### Hardware Installation

1. Connect the wired keyboard and mouse to a USB port of the computer.
2. The computer will automatically detect and set up the keyboard and mouse. No additional drivers are required for installation.
3. Upon connection, the keyboard can be used right away.

### DPI Switch Button(Mouse only)

The resolution of the mouse can be switched between 1000 DPI and 1600 DPI with the DPI switch button. It is recommended to use this mouse on a dedicated mouse pad for optimal performance.

### Windows Lock Key

To prevent an accidental launch of the Windows Start menu and interruption during gameplay, the F-1100 has a feature that will disable the windows start function. To enable this feature, press and hold of the FN key, then press the Win key to enable this feature. This will illuminate the indicator located in the upper right side of the keyboard. To re-activate the Windows Start function, simply press the combination of FN key and Window-lock key again.
