KEYLESS ENTRY SYSTEM

2 WAY 1 BUTTON REMOTES

To reprogram your remote first cycle the key in the ignition 5 times within 7 seconds. Parking lights will flash. After that top the Lock button on your remote. Repeat for any additional remotes. If you receive two parking light flashes, your system has exited remote programming mode and you must retry.
Top this button for I second to lock your doors and/or arm your vehicle.
Upon confirmation, the Lock LED will flash and the remote will chirp once.

Top this button twice within I second to unlock your doors and/or disarm your vehicle. Upon confirmation, the Unlock LED will flash and the remote will chirp twice.

Hold this button for 3 seconds to start your vehicle. Your vehicle's parking lights will flash once and/or siren will chirp once for confirmation. Upon confirmation, the Start LED will flash and remote chirp once. It will then chirp three times to confirm your vehicle has started. Repeat and your vehicle will shut off.

Valet Mode: If your remote start is not working, you may be in Valet Mode. Your parking lights will also not flash. Your doors will still lock and unlock. To exit Valet Mode, turn the vehicle's ignition On and then top this button 5 times, waiting a second between each top. Your vehicle will flash the parking lights twice and exit Valet Mode. You can also exit Valet Mode by turning the ignition On and then topping the foot brake I O times or reprogramming your remote(s).
