FISHER AND PAYKEL CI122DTB2N Induction Cooktop, 2 Zones with SmartZone User Guide

The energy efficiency and immediacy of induction heat, plus SmartZone. Pair your two cook zones to create one large heating surface.

- Immediate heat response and extremely accurate temperature control
- Child and pet safe – cooktop remains cool to touch until a pot or pan is placed on the surface
- PowerBoost activates a very high heat, bringing liquid to boil in less than a minute

- Touch&Slide controls easily control each cook zone

DIMENSIONS

Height: 3 11/16"

Width: 11 13/16"

Depth: 20 7/8"

FEATURES & BENEFITS

ENHANCED FEATURES

Power Boost and Gentle Heat deliver either very high or very low heat fast for specialised cooking tasks such as searing meat and melting chocolate. An integrated timer keeps you on track

SAFER CHOICE

Induction cook tops only start heating your pot or pan once you've placed it on the ceramic surface and stop as soon as you remove it – so you don't have to worry about curious little fingers or leaving an element on

EASY CLEANING

The surface around your cookware stays cool when you cook – preventing baked-on spills and making cleaning up a breeze. The durable ceramic cook top surface just needs a quick wipe after use to maintain its good looks.

INSTANT RESPONSE

Go from a boil to a simmer in seconds. Fisher & Paykel Touch&Slide controls react immediately when you adjust the temperature so you don't waste time in the kitchen.

SUPERIOR EFFICIENCY

Power Boost and Gentle Heat deliver either very high or very low heat fast for specialised cooking tasks such as searing meat and melting chocolate. An integrated timer keeps you on track.

PRECISE CONTROL

Fisher & Paykel induction cook tops offer extremely accurate, consistent temperature control from very high to very low heats, so you can sear, sauté and temper like a pro.

PERFECT STEAK WITH INDUCTION

Fisher & Paykel induction cooktops quickly reach high temperatures, ideal for cooking steak. Cast iron pans are the best choice as they are highly inductive and get really hot for perfect searing.

SPECIFICATIONS

Burner ratings

Max burner power: Yes

Cleaning

Flat easy clean glass surface: •

The product dimensions and specifications in this page apply to the specific product and model. Under our policy of continuous improvement, these dimensions and specifications may change at any time. You should therefore check with Fisher & Paykel's Customer Care Centre to ensure this page correctly describes the model currently available. Fisher & Paykel Appliances Ltd 2020

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions.

Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
