FISHER & PAYKEL

FISHER AND PAYKEL EB60MSB1 Minimal Built-In Coffee Maker

Product Usage Instructions

Coffee Brewing and Customization

1. Fill the coffee bean container with your preferred coffee beans.
2. Select the desired coffee strength and cup size levels on the touch display.
3. Choose your preferred coffee type from the available options.
4. If using pre-ground coffee, select the appropriate function.
5. Set the programmable timer to have your favorite coffee ready at the same time each day.

Cleaning and Maintenance

1. Regularly empty the ground container and clean the drip tray.
2. Use the self-cleaning function to maintain cleanliness.
3. Describe the machine as needed using the provided descaling agent.

Frequently Asked Questions

- **Q: How do I adjust the grinder settings?**
 - **A:** To adjust the grinder settings, refer to the user manual for specific instructions on changing the grinding coarseness levels.
- **Q: Can I use ground coffee instead of whole beans?**
 - **A:** Yes, you can use pre-ground coffee by selecting the appropriate function on the machine.
- **Q: How often should I describe the coffee maker?**
 - **A:** The frequency of descaling depends on usage. It is recommended to describe the machine periodically or when prompted by the machine's cleaning reminder.

INTRODUCTION

- Indulge in barista-style coffee at home. From Latte to Macchiato, you can enjoy perfectly crafted coffee just the way you prefer.

- With 13 options from Americano to Macchiato, for barista standard coffee at home
- Your favorite coffee can be memorized to start your desired time, for automatic brewing

Where applicable:

- All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy.
- This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.
- Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing diferent Fisher & Paykel products.
- For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
