- Pyrolytic self-cleaning function breaks down food residue for an easy clean

DIMENSIONS

- **Height** 598 mm
- **Width** 596 mm
- **Depth** 565 mm

FEATURES & BENEFITS

Handleless Design

Effortlessly open and close your oven with a gentle press of a button, ensuring convenience and smooth operation in the kitchen. Moving away from traditional oven doors, this model is an ideal match for kitchens with a continuous, handle-free design, ensuring a seamless flow across the cabinetry.

Cook With Confidence

Using the large 5" touchscreen interface, you can cook with a favorite method, hero ingredient, cooking function or recipe.

Your oven will guide you through the steps, or change the temperature and heat type automatically, depending on your selection.

Generous Capacity

With a generous 85L total capacity, you can create several perfectly cooked dishes at once using multiple shelves. Nontip, full-extension shelves help to ensure safe removal of hot dishes.

Exceptional Performance

Our unique cooking technologies were developed to help deliver perfect results. ActiveVent ensures optimised moisture levels, while AeroTech™ circulates heat evenly for a consistent temperature.

Self-Cleaning

Pyrolytic self-clean breaks down food residue at a very high temperature, leaving a light ash that's easily removed with a damp cloth. The enamel-coated side racks don't need to be removed when using this function.

Design Freedom

Crafted with premium materials and detailing, this oven supports a cohesive and considered kitchen design. Complement it with our Minimal style Warming Drawer to achieve the ultimate kitchen solution.

SPECIFICATIONS

Accessories (included)

- Flat brushed baking tray 1
- Grill rack 1 set
- Pyrolytic proof shelf runners •
- Roasting dish 1
- Smokeless grill tray 1
- Step down wire shelf 1

Where applicable:

- All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.
- Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer

Frequently Asked Questions

- **Q: Can the oven door be removed for cleaning?**
 - A: Yes, the oven door is removable for easy cleaning.
- **Q: How does the touchscreen interface assist in cooking?**
 - A: The touchscreen guides different food types and recipes, ensuring optimal cooking results.
