FISHER PAYKEL CI122DB1 Built-In Modular Induction Cooktop with SmartZone

Product Information

Model	CI122DB1
Product Name	Auxiliary Modular Induction Cooktop, 12, 2 Zones with SmartZone
Series	11
Color	Minimal Black
Main Features	Fusing precise induction technology with innovative design, this compact Auxiliary Induction Cooktop is designed to seamlessly pair with our Primary Induction Cooktop. It offers immediate heat response and accurate temperature control. The cooktop can create a large SmartZone by pairing zones together. It has a sleek black glass finish and remains cool to touch until a pot or pan is placed on the surface. The single surface finish makes it easy to clean.

Product Usage Instructions

To use the Auxiliary Modular Induction Cooktop, please follow these steps:

1. Ensure the cooktop is placed on a stable and heat-resistant surface.
2. Connect the cooktop to a power source.
3. Place a compatible pot or pan onto the cooktop surface.
4. Press the power button to turn on the cooktop.
5. Select the desired cooking zone by pressing the corresponding zone button.
6. Adjust the cooking temperature using the temperature control buttons.
7. Wait for the cooktop to heat up and reach the desired temperature.
8. Place the ingredients into the pot or pan and start cooking.

9. Monitor the cooking process and adjust the temperature as needed.
10. Once cooking is complete, turn off the cooktop by pressing the power button.
11. Allow the cooktop to cool down before cleaning.

Note: Please refer to the user manual for detailed instructions on specific features and functions of the cooktop.

Fusing precise induction technology with innovative design, this compact Auxiliary Induction Cooktop is designed to seamlessly pair with our Primary Induction Cooktop.

- Part of our unique modular cooking solution. Pair with a primary cooktop for the ultimate cooking experience
